Library of Congress

HUERTA GIVEN UNTIL TWELVE LAST NIGHT

To Announce His Decision to Prevent the Newly Elected Mexican Congress From Convening—Ultimatum Delivered By John Lind, Who Is on His Way to the United States.

Mexico City, Nov. 12.—Gen. Victoriano Huerta tacitly refused tonight to accede to the demands of the United States expressed in an ultimatum, sent to him by President Wilson's personal representative, John Lind.

Gen. Huerta was notified early today that unless he returned an answer by 6 o'clock this evening to the effect that he would prevent the newly elected Congress from convening, and furthermore, make this action known to the members of the diplomatic corps by midnight, the United States would have no further parleying with the Mexican government.

Mr. Lind waited until 6 o'clock and received no answer. He then made arrangements for his departure on the train leaving for Vera Cruz at. 8 o'clock. It was announced, however, that Gen. Huerta had one more chance—that if he took the action demanded by midnight the fact that he failed to reply to Mr. Lind within the time specified would be overlooked. Mr. Lind could see no good reason to suppose that Huerta intended to accede.

Nelson O'Shaughnessy, the charge, was the messenger who delivered the ultimatum. He was unable to get into personal touch with Gen. Huerta, but left the message at the President's office.

Takes No Excuses.

It was intimated tonight at the palace that Gen. Huerta had not received the note in time to give it full consideration. This, however, did not appear to Lind a valid excuse for procrastination.

The prevention of the convening of Congress has been one of the essential points in the negotiations coducted by Mr. Lind; this for two reasons: first, it was believed that the new Congress would lose no time in passing measures having to do with the oil concessions and second, because the convening of Congress would give an air of legality to Huerta's government.

Not since the recent revolutions began has the feeling in the Mexican capital been so tense as it was today.

The most categorical denials by the American charge, Nelson O'Shaughnessy and Mr. Lind of knowledge of any developments on this feeling could be based, failed to disabuse the minds of the people generally of the belief that the next 24 hours would see some decisive move on the part of Washington.

The reports spread until there was scarcely a foreign resident in the capital who had not heard that the American charge had been given, or was about to be given, his passports. A large part of the population confidently expected to see the whole embassy staff depart on the evening train for Vera Cruz.

All sorts of rumors were current. Many persons, who were contemplating leaving the country in the near future, made hurried preparations and caught the night train to Vera Cruz preferring to wait there until they can procure steamer accommodations to remaining in the capital.

Mr. Lind was said to have received messages from Vera Cruz urging him to return at once, for fear the railroad would be cut.

The uneasiness was accentuated through the receipt by several persons of messages from relatives and friends in the United States urging their immediate departure from Mexico.

To Issue Statement.

Washington, Nov. 12.—Secretary Bryan announced today that a statement would be issued within a few days setting forth the policy of the United States toward Mexico.

Whether or not the statement will be in the form of a communication to Congress by President Wilson, has not been disclosed, but some of the diplomats here believe it will be. The statement has been under consideration several days and Secretary Bryan in his conferences with members of the diplomatic corps, has made it plain that the pronouncement would define clearly the attitude of the United States.

Such a statement, it is thought, not only would reiterate the views that the United States can never recognize a government established by arbitrary force, but would give its reasons for refusing to recognize any acts of the new Congress either to the validity of loans or concessions, and point out the steps necessary to a solution of the problem.

It was apparent that developments in various foreign capitals brought encouragement for administration officials today and there was a feeling among them that the desire of the United States to prevent interference by the powers virtually has been accomplished.

Foreign Countries Friendly.

Premier Asquith's speech explaining that Great Britain wished to do nothing that was unfriendly to the United States; semi-official assertions from Berlin that no financial assistance would be given Huerta by Germany; a definite understanding with France that nothing would be done by France to embarrass the processes by which the United States had elected to solve the Mexican problem; assurances from the Japanese ambassador that the sending of the armored cruiser Izumo to Mexican waters was for no political purpose but merely to extend protection to Japanese subjects if necessary, all tended to strengthen the belief here that the Washington government finally had secured the moral support of the other world powers in its efforts to unravel the Mexican tangle. It also is felt that from no part of Europe will Huerta get financial assistance.

Fear reflected in some of the dispatches from abroad that the overthrow of Huerta might produce a state of anarchy in Mexico City unless a strong substitute were immediately provided, agrees with the point of view of many Senators who have been discussing the phase of the situation with President Wilson. The Washington administration has taken cognizance of this eventuality, and if Huerta retires in accordance with the programme desired here, it is said, there need be little fear of any physical disturbance in Mexico City.

In the plan of the United States there is a desire for a definite understanding also as to who would succeed President Tuerta if he retires. The United States recognizes that the provisional successor must be acceptable to the constitutionalists.

Close observers pointed out that the United States was today in a better position to bring about an understanding between the constitutionalists and the authorities at Mexico City than at any time since the United States first interposed its good offices.

Conference at Nogales.

The conference today at Nogales, Sonora, between William Bayard Hale and Gen. Carranza and members of the constitutionalist cabinet opens the way for a distinct line of communication between the constitutionalists and the Mexico City authorities. Peace commissions have endeavored in vain, to establish such a line of diplomatic parley.

One of the difficulties hitherto encountered in attempting to get the two sides to the point of discussing an armistice has been difficulty in telegraph communication. With the United States as a medium of communication, it is thought Carranza may indicate who would be acceptable to him as a successor to Huerta if the latter finally retires.

That some officials close to Huerta were urging him to retire was the word that reached Washington today, but no official information on the subject was divulged.

Secretary Bryan was in conference with many South American diplomats today, but he said the only subjects discussed was arrangements for the Pan-American Congress at Santiago, Chile, next year.

It was learned today with the exception of a broad general view of the future intentions of the United States, foreign diplomats here have been given only a summary of steps that have thus far been taken and no information has been given them of specific steps planned for the future.

Viscount Chinda, the Japanese ambassador, discussed the situation at some length with Mr. Bryan.

Talk of lifting the embargo on arms was heard again today in official circles. That members of Congress were not entirely agreed upon the subject was indicated by Representative Mann, Republican leader, who said that so far as the Republicans were concerned there was no sentiment in favor of letting down the bars. He said it would be just as safe to allow the issuance of arms "to highwaymen as to the bandits of Carranza's army."

Hale Meets Carranza.

Nogales, Sonora, November 12.—Crossing a narrow little stream from the United States into Mexico today William Bayard Hale, personal representative of President Wilson, met the Constitutionalist chief, General Venustiano Carranza and his cabinet, and presented to them a definite proposal from the American government.

What that proposal was the American diplomatic agent declined to say. The Mexican revolutionary leaders also were silent, but to those who have been anxiously awaiting the development of the American policy with regard to Mexico the conference was fraught with tremendous possibilities.

Into a little room of the customs house, in which General Carranza has established his ad interim capital, the American emissary was ushered to meet the chiefs of the revolution against Huerta. Carranza and his entire cabinet were there and with them Mr. Hale conferred, exchanged views and impressions and consulted from noon until the shadows grew long and enveloped the twin towns of Nogales, Arizona, and Nogales, Mexico. Both towns agreed that the conference was the most important event in their history. The peoples frankly believed that it was making history and that on its outcome depended not merely victory or defeat for a single politician of Mexico, but possibly peace or war for the two countries and probably the salvation or destruction of a Nation.

Where Conference Held.

The conference was held amid the simpliest surroundings. There were no uniforms nor ceremony, Mr. Hale accompanied by American Consul Frederick Simpich, entered the customs house and was ushered into the tiny room with straight-back chairs linig the walls. The only decoration was a guilded coat of arms of the Republic of Mexico which hung over the place reserved for General Carranza.

Ignacio Bonillas, an American University graduate and Carranza's minister of fomento, acting as interpreter for the American representative, and General Carranza listened to President Wilson's proposition from Mr. Hale and in Spanish presented it to the rebel chieftain.

During the hours the conference was in session a throng of anxious Mexicans paced the pacio of the "Aduana" or customs house. Across the boundary on the American side of the

(Continued on Page Eight.)

MORE VICTIMS OF STORM

The Freighter Found Floating Bottom Up Still Unidentified—Life Boats Containing Frozen Bodies Are Swept Ashore.

Port Huron, Mich., Nov. 12.—After working desperately since this morning in an unsuccessful attempt to identify positively the derelict freighter which lies bottom side up in stormy Lake Huron, eight miles northeast of here, marine men returned to Port Huron tonight. Most of them said they were convinced that the boat is the Canadian package freighter Regina.

Capt. George Plough, of the Lake View life saving station, measured the overturned boat and said her beam was slightly more than 42 feet. The Regina's beam is 43 feet. The wreckage from the Regina washed ashore yesterday, including a lifeboat which contained two bodies of sailors positively identified as members of the crew of the Regina, indicated that the freighter was wrecked in the vicinity where the overturned vessel was found.

Little credence is given here to the report from Goderich, Ont., that the seven bodies found on the shore of Lake Huron below Grand Bend, were sailors on the steamer Charles S. Price, reported lost. The Price may have sunk, marine men admit, but it is believed the bodies were of members of the crew of the Regina. They were found not a great distance from where the Regina victims, found in a row boat, were washed ashore.

When the relief fleet steamed out to the floating wreck this morning a diver was taken along. A gale was blowing across Lake Huron and waves were dashing 10 feet over the derelict, but the diver urged the captains to allow him to attempt to climb down the side of the vessel's bow to ascertain her name. The men in command thought the plan foolhardy but promised to give him a chance tomorrow provided the lake is not so rough.

A report this afternoon from Port Frank, Ont., stated that eight additional bodies were washed ashore in a life boat there today. Wires are down and the identity of the life boat could not be learned.

No More Wrecks Reported.

Detroit, Mich., Nov. 12.—No more wrecks or vessels in distress were reported today from points on Lake St. Clair and along the Detroit river. A number of hunters believed to have been on these waters in open boats when the blizzard swept Michigan Sunday, are still missing.

Cleveland Again Nominal.

Cleveland, November 12.—With the work of restoring the normal order proceeding rapidly and delivery of food and coal supplies beginning, Cleveland residents tonight experienced only the inconveniences resulting from the heavy snowfall. Electric light service to many parts of the city which have been dark for three nights have been partially restored. Almost all the street cars are running and delivery of mail was begun today.

The menace of the mounds of snow and ice which festoon all the downtown buildings caused police to be stationed along the streets to warn pedestrians to keep out near the curb. The bright sun today started a comparatively rapid thaw on roofs but small decrease in the depth of the snow on the ground could be noticed. An attempt will be made to open the school houses tomorrow.

The highest point reached by the thermometer today was 43 degrees at 3 o'clock this afternoon, a rise of 23

(Continued on Page Eight.)

Southern States Woman's Suffrage

New Orleans, November 12.—Women suffragettes who met here as the Louisiana Suffrage Association with several representatives from other Southern States, adjourned this afternoon after organizing a Southern conference of suffragists and a new State body. Miss Kate M. Gordon, of New Orleans, was elected president of the body embracing the Southern States.

This organization will be known as the Southern States Woman's Suffrage Conference and will hold annual meetings.

It is understood the organization will stand for trying to gain votes for women through amendments to State constitutions rather than a Federal measure as advocated by the National Women's Suffrage Organization.

Other officers of the conference elected this afternoon are: Mrs. Laura Clay, Kentucky, vice president-at-large Mrs. John B. Parker, New Orleans, corresponding secretary; Mrs. Emma Maddox Funck, Maryland, recording secretary; Mrs. George E. Cunningham, Arkansas, treasurer; Mrs. Nellie Nugent Sommerville, Mississippi, and Miss Jennie E. Lauderdale, Tennessee, auditors.

State vice prisedents: Mrs. Eugent Reilly, North Carolina; Mrs. Chappelle Cory, Alabama; Mrs. O. F. Ellington, Arkansas; Miss Belle Kearney, Mississippi; Mrs. Helen Gardnner, Washington, D. C.; Mrs. Florence Cooley, Florida; Mrs. Frances Gordon Burton Smith, Georgia; Mrs. Laura L. C. Poe, Maryland; Mrs. Desha Breckenridge, Kentucky; Mrs. B. B. Vallentine, Virginia; Mrs. John B. Gibbons, South Carolina; Miss Sara B. Elliott, Tennessee; Miss Annette Finnegan, Texas; Mrs. A. D. Stevens, Oklahoma, and Miss Florence Loeber, Louisiana.

WHISKEY SAID TO BE NATIONAL CURSE

Former Governor Patterson of Tennessee Addresses Anti-Saloon League

OTHER GOVERNORS SPEAK

Predict Resolution of Congress Prohibiting Sale of Intoxicating Liquors as a Beverage Within Possessions.

Columbus, O., Nov. 12.—Predicting that a resolution prohibiting the traffic of intoxicants as beverages in the United States and all territories under its jurisdiction soon would be adopted by Congress, and declaring that "if I am then Governor of Kansas I will immediately convene the Legislature in special session if necessary for the purpose of ratifying the amendment," Governor George H. Hodges, of Kansas tonight threw the 15th biennial convention of the American anti-saloon league into an uproar of applause.

Governor L. B. Hanna, of North Dakota, another speaker, gave statistics to show the prosperity of his State under "prohibition" reign and said the "brewers' year book" showed no consumption in his State of their manufacture in 1911.

The day session was brought to a climax with a stirring address by former Governor M. R. Patterson, of Tennessee, in which he gave reasons for his enlisting with the anti-saloon movement.

"The anti-saloon league and I have not always been friends," said Mr. Patterson. "The paths we traveled were wide apart, but the path I traveled turned in its course. It ran into the other and we now find ourselves in the same road marching in the same direction actuated by the same desire to destroy the traffic in liquor and redeem a nation from its curse.

"I am neither ashamed nor abashed to stand before this great audience and asknowledge the wrong when I once advocated policies which would have made legal a trade which I have come to look upon as having no rightful place in Christian civilization."

Patterson Tells of Convictions.

Commenting on one of his own messages to the Tennessee Legislature in which he opposed further legislation to regulate the saloon traffic, Mr. Patterson declared that at that time those were his honest convictions

(Continued on Page Eight.)

Opening of Safety at Sea Conference

London, Nov. 12.—When the International Conference of Safety at Sea began its sessions here today, a message from King George was read in which the King expressed his hope that the labors of the conference would be successful because the conference "affects closely the lives and welfare of a vast number of my subjects." The message spoke of the King's personal experience as a sailor and of many matters which will come up for consideration, and continued:

"An international agreement on measures to remove or decrease the perils of the sea would confer untold benefit on humanity throughout the world."

Lord Mersey is presiding and the delegates were welcomed by the Right Hon. Sydney Buxton, president of the Board of Trade. Twelve nations are participating—the United States, Great Britain, Belgium, France, The Netherlands, Russia, Denmark, Germany, Norway, Spain, Canada and New Zealand.

OUTLINES

Former Governor Patterson, of Tennessee in an address before the Anti-Saloon League told of his once being against prohibition and why he had changed.

The conference of Democratic Senators over the Currency bill took no action as a result of a request made by Chairman Owen of the committee.

Secretary of Labor Wilson, before the American Federation of Labor assailed conditions in the strike zone in Michigan, where non-union labor has been used extensively.

Secretary Bryan stated last night that before many days had passed a statement would be given out by President Wilson defining his Mexican policy. This statement probably will be addressed to Congress.

President Wilson will nominate Pindell, of Peoria, Ill., as ambassador to Russia, regardless of the racket raised about correspondence between Senator Lewis and the newspaper man.

The United Daughters of the Confederacy in session at New Orleans, refused to accept greetings from the Louisiana State Woman's Suffrage Society in session at the same time. A resolution asking Miss Gordon, of the suffragettes to address the organization met the same fate.

New York markets: Flour steady. Wheat irregular: No. 2 red 96 1-2 to 98. Corn easy 79 1-2. Rosin steady. Turpentine steady. Money on call firm 3 1-2 to 4; ruling rate 3 3-4; closing 3 1-2 to 3 3-4. Spot cotton quiet; middling uplands 13.60; middling gulf 13.85.

Kaiser Wilhelm at Dedication.

A feature of the recent dedication of the Battle of Nations Memorial at Leipzig, the centenary of the great battle where the Germans and other Nations routed the battalions of Napoleon, was the attendance of Kaiser Wilhelm. This caused an outburts of patriotism and National feeling in the Fatherland which was one of the notable events of the week.

U. D. C. REPUDIATES WOMAN SUFFRAGE

Refuse to Accept Greeting from "Votes for Woman" Orginazation in South

WILL NOT MIX IN POLITICS

President General White of Daughters of Confederacy Urges Against Attempts to Secure Pensions for Soldiers.

New Orleans Nov. 12.—United Daughters of the Confederacy deviated from their programme long enough today to flatly refuse to accept greetings from the Southern States Woman's Suffrage Conference, or to invite Miss Kate M. Gordon, the conference president, to speak. It was declared upon the convention floor that the Daughters will not have politics of any sort injected into their organization.

The suffrage conference was organized by delegates to a Louisiana suffrage convention which adjourned late this afternoon. After the adjournment Mrs. C. A. Cantrell, of Kentucky, offered a motion asking that Miss Gordon be invited to speak. Mrs. Norman Randolph, of Virgina, made a spirited address against such action and moved that the motion be tabled.

(Continued on Page Eight.)

Will Nominate Mr. Pindell After All

Washington, November 12.—Henry M. Pindell, of Peoria, will be nominated for ambassador to Russia, and the recently published correspondence which was alleged to have passed between him and Senator Lewis will not influence the President's decision. Secretary Bryan today issued a statement to this effect. He said:

"Mr. Pindell did not seek the appointment. In response to the offer he frankly stated that he did not feel that he could conscientiously obligate himself to serve the full ordinary term of a foreign appointment because he did not feel that he could leave his business so long. The President asked him to accept it for as long a time as he could stay, and he consented.

"This is a full statement of a matter which has been grossly misrepresented. The President will not allow malicious representations to interfere with his right to nominate to the Senate the best qualified men within his choice for conspicuous and responsible positions."

Senator Lewis tonight issued a statement explaining the much discussed letters from him to Mr. Pindell, saying:

"The creation of these letters now develops to have been the result of a collusion on the part of a former employe of my office in Washington, who previously had forged my name to checks, and had been discharged, and certain of his confederates. These shaped the letters and sought to dispose of the same as being from me to Mr. Pindell. However, the language used and the phraseology in the invented letters were so foreign to anything ever used by me that for three weeks throughout the country he had been unsuccessful.

"Later through co-operation of some enemies of Pindell was the faithless employe able to impose upon reputable newspapers."

NO ACTION TAKEN BY CONFERENCE

Senator Owen Requests Caucus of Democrats to Give Committee Time

HITCHCOCK OUT OF LINE

Full Membership of Banking and Currency Committee to Gather Today in Final Effort to Secure An Agreement.

Washington, November 12.—The attempt to force the administration currency bill through the Senate by way of the Democratic caucus was abandoned today and the Banking and Currency Committee was given time for further consideration of the bill. Practical agreement by six Democratic Senators, half of the committee, and hope for a final report within five or six days, was reported to the Democratic conference when it met today by Senator Owen, and at his request the conference took no action.

Since the call for the conference was issued Senators Reed and O'Gorman had joined Chairman Owen and Senators Pomerene, Shafroth and Hollis, supporters of the administration measure, despite their votes against some of its provisions in the committee. These six Democrats have virtually agreed on a bill which meets the views of President Wilson. This measure will be taken before the Senate as soon as possible.

Another futile attempt to swing Senator Hitchcock, of Nebraska in line with his Democratic colleagues was made in a meeting of Democrats of the committee after the conference. Tomorrow the full committee, Democrats and Republicans will meet and another attempt will be made to secure an agreement among a majority.

Unanimous Report.

If this fails it is probable that the Democrats and Republicans will make a unanimous report on these details of the bill which all approve and then submit supplementary reports showing their points of disagreement. The Republicans and Senator Hitchcock have announced their determination to stand out to the last for the public ownership of the regional banks in the new system and for government control of those banks.

Today's conference was in session but about half an hour. Senator Owen made a statement of the situation in the committee and said that six of the seven Democrats was in practical agreement. He declared that five or six days more, he believed, would give the committee time to frame a report. Without further discussion the conference agreed to adjourn, subject to the call of the chairman.

Chairman Owen was asked by several Senators whether or not he was convinced that currency legislation could not be put through the Senate at this session of Congress, and whether an adjournment of Congress might not well be taken. He made no dfinite reply but several Senators took the position that there could be no currency legislation before December.

There has been considerable pressure for an adjournment, if only for ten days or two weeks, on both sides of the capitol, but it is understood that in view of the Mexican situation Congress will be kept in Washington regardless of currency legislation.

New York, November 12.—New York enlarged its facilities for the treatment of tuberculosis today by opening a new $3,500,000 hospital on Staten Island. The hospital is at Castleton Corners, swept by sea breezes and called "Sea View." Eighty patients already have been admitted.

SMALL SALARIES LARGE DIVIDENDS

Secretary of Labor Wilson Addresses American Federation of Labor

MAKE CONDITIONS PUBLIC

Calls Members of Organization "Fellow Unionists" and Declares a New Conception of Titles is Forming.

Seattle, Wash., Nov. 12.—Secretary of Labor William B. Wilson, addressing the American Federation of Labor today, bitterly condemned the attitude of the Michigan copper mining companies and warned them that a new conception of titles to property was in progress of formation. He declared he would make public not only the wages paid to the miners, the hours they worked and the labor conditions, but the enormous profits of the mine owners.

Mr. Wilson, who addressed the delegates as "fellow Unionists," said:

"The Department of Labor as now organized and directed will be utilized to co-operate with the great trade union movement in its effort to elevate the standard of human society.

"One of the general duties imposed on the department is that of promoting the welfare of wage workers.

"The one great specific duty imposed on the department is to act as a mediator and to appoint commissioners of conciliation in trades disputes.

"There can be no mediation, there can be no conciliation between employers and employes that doesn't pre-suppose collective bargaining, and there cannot be collective bargaining that does not pre-suppose trade unionism."

Of the situation at Calumet, Mich., the secretary said it had heretofore been a custom to investigate wages, hours and conditions of labor and report. This time, he said, it had been determined to investigate also the earnings of the corporations involved.

Large Dividends.

"And the little bit of confidence that I am going to give you," he added, "is that the largest corporation engaged in the production of copper in the Michigan district was organized in 1870 under the laws of the State of Michigan, and that the face value of its capital stock is $2,500,000. The shares are $25 each. They were purchosed at $12 each, so that the actual investmept was $1,250,000.

"From that time until one year ago that corporation declared in dividends $121,000,000 and made re-investments out of its earnings of $75,000,000. Nearly $200,000,000 of actual net profits in a period of 42 years on an investment of $1,250,000, and then they not only protest against meeting committees of their workmen but refuse to accept the good offices of the Department of Labor in negotiating the difficulty.

"They say their property is their own; that they have the right to do with it as they please. Those who take that position have a false conception of the titles to property.

"Law has created those titles, not primarily for the welfare of the man to whom it conveys it, but for the welfare of the community.

"Society has conceived that the best method of promoting the welfare of society is to convey titles to individuals in real estate and personal effects. It does it, however, not for the welfare of the individual, but for the welfare of the great mass of the people. If any individual or corporation takes the ground that the property is his own, that he has the right to do with it as he pleases and fails to take into consideration the fact that the title has only been conveyed to him as a trustee for the welfare of the society, then he is creating a condition that will cause society to modify or change these titles to property, as it has a perfect right to do."

Mr. Wilson condemned the sending of strike-breakers by private employment agencies and said:

Bureau of Information.

"I wish to see created within the Department of Labor a bureau of information that will be handled much on the same lines as our weather bureau of information, where we will gather the information of where men can find employment, the wages they will receive, the hours of employment the conditions under which they toil, whether or not a trade union is recognized and last, but not least, whether or not any trade dispute exists where the employment may be had; and then condense that information into a sheet that can be posted in every postoffice in the United States and in every other place where men congregate, so that when a man comes into a community where a strike exists for the purpose of taking the place of strikers, he does so with his eyes open."

The Secretary also spoke of the Indianapolis car strike and of the trouble in the Colorado coal fields.

In the recent street car trouble at Indianapolis we offered our good offices before the strike commenced," he said, "and had a storm of abuse heaped on us by members of the Manufacturers' Association on the ground we were giving encouragement to trades unionism by sending our representative in there. Notwithstanding, the representative went in there, and when the strike occurred, it was ultimately adjusted.

Representative to Colorado.

"We sent a representative out to Colorado to the coal mines' strike. But we have thus far failed to secure an adjustment. We are not through with it yet by any means."

Speaking of the power of organized labor, he said:

"As I look back over my 40 years of experience as a trades unionist, I

can see many men that never acquired prominence in the trades union movement, men that might have swayed the rod of empire who were crushed by the wayside by the power of organized capital because they dared to protest against unjust and unfair conditions. I can see that going on here and there in our country today, and if the Department of Labor can do anything to wipe out that process of crushing the toilers because they dared to protest, the Department of Labor will utilize everything in its power to prevent it."

Delegates to the recent British Union Congress made their report to the convention today.

Peace overtures of the Reid faction of the International Brotherhood of Electrical Workers proposing that the officers of both regulars and seceders resign and then a re-organization be effected, were welcomed by a majority of the delegates.

There still is no sign of threatened revolt against the Gompers regime.

Movement in England.

The British fraternal delegates, Thomas Grennall and I. H. Gwynne, told the convention of the progress of the trades union movement in Great Britain and of the social legislation obtained by the co-operation of the unions and the labor party. Gwynne said that England was paying too much attention to its navy and too little heed to the welfare of its men and women.

Mrs. Raymond Robinson, of Chicago, explaining the purposes of the National Women's Trade Union League, of which she is president, brought a wave of applause by mentioning Mrs. Pankhurst.

Miss Annie Fitzgerald explained the purposes of the Women's International Trades Union Label League. She said the members of the Federation of Labor earned $1,248,000,000 a year and the women spent 70 per cent. of this sum.

President Gompers and Secretary Wilson spoke at a luncheon of the Commercial Club at noon. Both said the immigration problem was a menace to the Pacific coast and there ought to be barriers to unrestricted admission of penniless people who might be the prey of exploiters.

Discuss Wilson's Speech.

Calumet, Mich., November 12.—Commenting on Secretary Wilson's Seattle speech before the American Federation of Labor condemning the policy of the copper mining companies of Michigan, in the copper strike, General Manager James MacNaughton, of the Calumet and Hecla Mining Company, tonight said:

"Mr. Wilson, through representatives of his department, made a thorough investigation of strike conditions. Upward of 20 of the mining companies answered a series of 110 questions each. Mr. Wilson's criticism is based on the reply of one company to two of these questions, those pertaining to capitalization and to dividends. He selected two questions questions which had no bearing whatever on the controversy. Such political buncombe is worthy only of a peanut politician, 'a man in Wilson's position should be above it.'

"It would naturally be presumed that a cabinet member would be unbiased. In view of Mr. Wilson's statement that he proposed to make public the 'enormous profits' of the copper companies (all of which by the way has been public property), it will be interesting to note whether he makes public all of the other information collected by his department on the subject of the strike. It is at least significant that the one company selected by Wilson as the basis of his condemnation of all copper companies in Michigan, is the only company that is running full handed at present.

"Mr. Wilson's statement that the mining companies refused to meet a committee of workment is absolutely false. Mr. Wilson offered his services as mediator in the strike in Michigan and such services were declined."

LAWS TO GOVERN DIVORCE

Farms and Homes Throughout the Country Are to be Established Where Unfortunate Women May Find Refuge from the World.

Minneapolis, Minn., Nov. 12. — Departments of recreation in all cities to combat the evil influences of dance halls; Federal laws goverining divorce and marriage of an inter-State nature, and a congress of newspaper men to discuss methods of governing the dissemination of news relative to the white slave traffic, were among the recommendations offered by Clifford G. Roe, of Chicago, in an address before the International Purity Congress, which closed here tonight.

Mr. Roe is president of the American Bureau of Moral Education, and was appointed a delegate to the congress by Secretary of State Bryan, by authority of a joint resolution of Congress.

Mr. Roe spoke on "white slavery, and the best methods of dealing with the evil."

The next regular congress will be held in 1915, but the location has not been decided.

School children over the entire country in a resolution adopted today are asked to contribute ten cents each to assist Anthony Comstock, of New York, in his crusade against immorality.

"The term 'white slavery' has broadened greatly in recent years," said Mr. Roe, in his address. "In the past, efforts to deal with the social evil problem were mostly regulative. A scientific study, however, has brougat about the adoption of the attitude of constant repression, as the immediate method, and absolute suppression of commercialized vice as the ultimate ideal.

"Neglect by parents in bringing up their daughters is a big factor in the making of white slaves. Mothers are often too busy attending clubs, theatres and card parties to find time to look after their children. Fathers have a keener interest in their properties than they have for the welfare of their daughters."

Farms and homes throughout the country where refuge may be extended to unfortunate women are to be established by the World's Purity Federation," under whose auspices the congress is held. Five members of the organization today were appointed to study conditions among these women, and to establish the refuges.

COLORED PEOPLE INVITED.

To Visit Corn Show and Agricultural Exhibit Friday Morning.

The committee in charge of the Corn Show at the old Southern Express building opposite the postoffice, wish to extend a cordial invitation to the colored people of the city and county to visit the show Friday morning to see the many splendid exhibits. The show will be kept open until 2 o'clock in the afternoon. It is believed that this will be a fine object lesson for the colored people as it has been for the white people this week. The colored farmers are especially invited to come.

ADDRESS BY DR. J. Y. JOYNER

(Continued from Page Five).

to give any extended training along this line but one of the movements that is helping to solve this problem is the Girls' Canning Clubs. For this reason the ladies of Sorosis were particularly glad, she said, to have Mrs. McKimmon address the citizens of New Hanover on this important subject.

The address of Mrs. McKimmon was short but filled with facts that are of the greatest interest to those who are striving to develop the latent resources of this State. She spoke with pride of the 230 girls who last year put up 70,000 cans of tomatoes, and the 400 this year whom she was sure would greatly exceed this. As she told of various girls who had become interested in the movement it was easy to see why she is so enthusiastic over the subject.

Each girl is allowed one-tenth of an acre on which to grow tomatoes and those raising the greatest amount from this space are given prizes. The cans must be labeled with the name of the one who does the canning, and this is intended to be a guarantee of the quality and the quantity. That both are all right in this State has been demonstrated by the great demand that has been manifested for the canned goods. Even at Cornell University where everything must be pure and wholesome large quantities of the tomatoes have been sold.

She expressed the hope that New Hanover county would point the movement, and that there will be a large number of girls in this county next year who will compete for the prizes offered. The elements of character demanded are perseverance and a willingness to work. About 25 per cent. of those who enroll for the prize drop out before the close of the season, she said, but this only demonstrates that it takes courage and hard work to do anything worth while. Her advice in conclusion was expressed wittily when she said, "Can all you can."

School Betterment Work.

Following Mrs. McKimmons' address Mrs. M. L. Stover introduced Miss Edith Royster. She told of the splendid work that Miss Royster has done in Wake county where she has had charge of the betterment work for several years. Not alone in this has she been active for she is also president of the North Carolina Primary Teachers' Association, she said, and as assistant superintendent of public instruction, the first woman in the State to be appointed to such a position, she has set a worthy example for the other women who have since been appointed to like positions.

Miss Royster gave a history of the School Betterment Associations of the State which were inaugurated under the leadership of Dr. McIver. Getting the community together is their main purpose, she said, for if we can get the community together we can do almost anything we desire.

The name school association is a misnomer to some for the movement is not confined to the schools but is designed to enlist the services of everyone in the community. Naturally the best place to get the people together is at the school house. It cannot be done at the church for all do not belong to one church but all are interested in the school.

The three important elements involved in the proper training of the child is the environment, care and education. The betterment associations seek to provide a better environment for them by improving the school grounds and aiding in securing better surroundings in the home. Two of the ways in which it has sought to care for the child is through securing for them better lunches and also by physical inspection to see that they have sound bodies. In education this organization seeks to make it more practical and useful.

In conclusion she urged the organization of a Betterment Association for New Hanover county. It is purely a voluntary organization, she said, designed to bring about certain reforms in the regular organized forms for carrying on the school and community government. As soon as the principles for which it stands have been incorporated into the regular system the organization as such may be discarded.

Prof. Catlett endorsed what Miss Royster had said about the betterment associations, and said that it was his purpose to organize New Hanover, and to seek to have this work carried on in this county.

This closed the addresses for the day. Mr. C. R. Hudson, of Raleigh, who has charge of the farm demonstration work in this State, and Mr. A. K. Robertson, assistant director of the Boys' Corn Clubs, were present, but did not make addresses. They assisted in judging the corn and agricultural products yesterday afternoon, and expressed themselves as being highly pleased with the splendid exhibition.

List of Corn Prizes.

The judges for the exhibits of corn and agricultural exhibits composed of Messrs. C. R. Hudson and A. K. Robertson, of Raleigh, and Mr. F. A. Brown, of Wilmington, went over the display yesterday afternoon, and made the award of prizes for the best exhibits. There were so many splendid exhibits, especially of corn and potatoes, that it was hard to make the selection of those winning prizes.

The corn was judged according to the uniformity of ears and not according to size except in the case of the prizes for the heaviest ears. It was for this reason that those getting the highest prizes were in some instances ears that were smaller than many others in the exhibit.

Following is a list of those winning prizes for the various agricultural exhibits. Except where the postoffice is indicated otherwise they are all from Wilmington and vicinity:

Pears—First prize, B. B. Trask; second, R. P. Beasley.

Lettuce—First prize, Elijah Walton; second, C. F. Seitter, Jr.; third, G. W. Westbrook; fourth, J. P. Herring, Jr.

Turnips—First prize, C. F. Seitter, Jr.; second, W. D. Rhodes; third, P. H. Rasberry; fourth, Lee Gee.

Peanuts—First prize, W. B. Canady; Scott's Hill; second, J. H. Blake.

Sweet Potatoes—First prize, W. D. Rhodes; second, J. Herbert Johnston; third, E. I. Herring; fourth, F. J. Dempsey; fifth, Owen Martindale.

Corn—First prize, J. T. Kerr; second, A. O. McEachern; third, J. Herbert Johnston; fourth, B. B. Trask; fifth, J. Herbert Johnston; sixth, J. O. Grimes; seventh, Marion Keith.

Irish Potatoes—First prize, E. I. Herring; second, C. F. Seitter; third, C. H. Riesz, Watha; fourth, J. Herbert Johnston; fifth, Industrial School, Watha.

Collards—First prize, R. F. Beasley. No other prizes.

Peppers—First and second prizes, Industrial School, Watha.

For heaviest dozen ears of corn, B. B. Trask won the prize; for heaviest dozen potatoes, H. F. Canady; for heaviest dozen Irish potatoes, E. I. Herring.

The butter will be judged this morning by Dr. Thos. B. Carroll.

This morning at 11 o'clock at the building where the exhibits are on display the prizes for best agricultural exhibits and for the best yield in corn for the past year will be awarded by Mr. D. L. Gore. There have been some good yields, and in several of the contests the race has been close.

Sorosis Prizes.

Tonight at 9 o'clock at the building the prize winners in the Fine Arts and Industrial Exhibit given under the auspices of North Carolina Sorosis will be announced. The prizes will be awarded by Mr. E. H. Munson, Robert Ruark, Esq., and Dr. L. B. Sasser. Music will be furnished during the entire evening, and as this will be one of the most interesting events of the show there will no doubt be a large attendance.

One of the attractive displays at the exhibition this week is that of Miss Lucy B. Moore, who has a most interesting exhibit of baskets of all kinds and descriptions. There are large, medium-sized and small ones. A profusion of flowers pleasingly arranged in the baskets add much to their beauty. They are "made in Wilmington," and are of many designs.

Another exhibit that has created much favorable comment is that of Mr. H. E. Bonitz, the well known architect of this city. Mr. Bonitz has been an architect for 20 years, and has made a specialty of making plans and designs for schools and churches. He has recently completed plans for the remodeling of St. John's Lutheran church, at Salisbury, a new Methodist church at Fair Bluff, a new Lutheran church at Fair Bluff, a new Lutheran church at Morristown, Tenn., a new Lutheran church at Raleigh and a number of others.

He has also planned and has at the present time under construction school buildings at St. Pauls, Roseboro, Aberdeen, Antioch in Hoke county, Rose Hill, Winnsboro and has completed plans for one of the proposed new school buildings for Wilmington.

In the display are also plans of a Lutheran church in Richmond, Va., and the Y. M. C. A. building at the A. & M. College at Raleigh. Attractively arranged and displayed in such a way as to be readily exammed they have attracted much favorable attention.

One of the most interesting and largest displays is that of the Astyptodyne Chemical Company, which is one of Wilmington's newest but withal most successful enterprises. The display has attracted much attention. Eleven different preparations are displayed and samples are given to those visiting the fair. The products include Astyptodyne soap, healing oil, cough remedy, Trokes for the throat, croup and pneumonia salve, hair tonic and dandruff cure, hair oil and scalp cleaner, mange remedy and Skee-ter-go. Practically all of these products are well known in Wilmington and in many parts of the country and have a wide sale. When the fair is over the display will be given to Sorosis and sold by the ladies for the benefit of the club.

Illustrated Lecture Last Night.

A large congregation was present last night at the Brooklyn Baptist church to see the illustrated lecture on the "Great White Plague." The slides were explained as they were flashed upon the screen by Dr. B. J. Willingham. The lecture was entirely devoid of technical terms and so simple that the smallest child was able to understand the lessons that the pictures were meant to convey.

For the best all wool blankets go to C. H. Fore & Co.
(advertisement.)

The South has never before seen anything like the SOVEREIGN success because the South has never had another cigarette like SOVEREIGN. "Quality Tells."

In recent years many new cigarette brands have been failures in the South — because you cannot fool Southerners on quality.

A Southern smoker will not change his brand unless you show him something absolutely better. That's just what SOVEREIGN has done. Result—nearly 100,000,000 a month sales the 18th month on the market!

Southerners have found in SOVEREIGN better tobacco—their favorite Southern-grown, Old Belt, Virginia-North Carolina leaf—but smoother and mellower as the result of careful ageing and blending.

Southerners have found in SOVEREIGN greater enjoyment—the cigarettes don't smoulder and "go out" between puffs, but burn evenly, because they are rolled in the most expensive cigarette paper ever imported from France.

SOVEREIGN sales are growing 10,000,000 a month—there's nothing half-hearted about Southern enthusiasm.

The American Tobacco Co.

"QUALITY TELLS"

The Remington Cubs find that speed helps in the woods

Steel Lined
SHOT SHELLS
Cut down your lead—Get your bird with the center of the load

IN the making of shot shells, the greatest forward step since the invention of smokeless powder is the *steel lining* to grip the powder and concentrate all the drive of the explosion back of the shot.

It's a Remington special invention—that steel lining. You find it in the Remington-UMC *Arrow and Nitro Club*. These steel-lined shells get their shot to the target quicker than any other shell known to the shooting fraternity. They cut down the guess-work about lead and angles. They put the center of the load right on your bird.

The steel lining is moisture-proof—no dampness can get through. Jar-proof—no powder can get out. Water-proof—no energy is lost.

Shoot Remington-UMC Arrow and Nitro Club Steel Lined Eastern Factory Loaded Shells for *Speed Plus Pattern* in any make of shotgun.

Your dealer carries them—or, if he doesn't, there's a more alert dealer in this section who is worth your finding

FOR EXCEPTION TO RATES

Chairman Travis Leaves for Washington—Wilmington Hearing Postponed—Governor Craig Talks—Monument.

(Special Star Correspondence.)

Raleigh, N. C., Nov. 12.—Chairman Travis, of the Corporation Commission, has been summoned to Washington for the formal presentation to the Inter-State Commerce Commission of the application for exception to the fourth, or long and short haul clause, of the Inter-State Commerce Act in so far as it applies to reduced inter-State rates in special cases.

This course is in line with the agreement between the railroad companies and the Legislature in the acceptance of the proposal for adjustment of inter-State freight rates in order that the reduced schedules of freight rates under this proposal may be put into effect. And it was understood that this course would be taken when the rate adjustment proposal was accepted by the Legislature at the special session. The petition will be presented to the commission Thursday and there seems to be no question but what the application will be granted. Chairman Travis went to Washington tonight.

The fact that Chairman Travis, of the Corporation Commission, is summoned to Washington for the presentation of the petition by the Inter-State carriers of their petition for exemption from the operation of the fourth, or long and short haul clause, for the application of the new reduced inter-State rates to North Carolina, has necessitated the temporary postponement of the "cross-tie rate" hearing set for Friday in Wilmington. Commissioners Lee and Pell will be in Warsaw Thursday for a telephone hearing. All three commissioners were in Rose Hill and Wallace today for hearings as to new Atlantic Coast Line passenger stations. At LaGrange Tuesday for the passenger station hearing there was a big barbecue complimentary to the commissioners and the visiting railroad officials. The adequate rebuilding of the burned passenger station is the issue there.

Governor Craig says he is receiving from every section of the State most gratifying reports of the work done during the two "good roads days" November 5th and 6th, the reports coming literally from all sections from "Curituck to Cherokee." In numbers of instances photographs are sent showing the people engaged in the work and in numbers of cases men, women and children are shown to be at work. An especially notable picture of this sort came from Old Fort, where much progress was made in road building.

The Governor says he was especially gratified at the action of the faculty and students of the University of North Carolina in turning out for road work on a large scale. This example set at the State's greatest institution, the Governor says, will be an immense inspiration to the whole State for years to come and the enthusiasm and public spirit that characterized this work by president, faculty and students will be gratifying to the whole State.

At Buie's Creek the faculty and students also turned out to much effect as did numbers of the other schools in all parts of the State, the Governor says, and the influence of these will be great. He says the labors of Dr. Joseph Hyde Pratt, State geologist, have been most valuable, he having been one of the moving spirits in furthering the great work and stirring the enthusiasm that has and is counting for so much. "The people will never stop in this work until all the old roads are changed into fine highways. Clearly the people are aroused and there is no stopping," declared the Governor.

President J. A. Long, Roxboro, and Secretary R. D. W. Connor, Raleigh, of the commission for the erection of the $12,000 monument to North Carolina Women of the Confederacy in Capitol Square here, the gift of the late Col. Ashley Horne to the State, are just back from Washington City where they, acting for the whole commission, definitely approved the model for the bronze figure and it will be sent at once to the foundry for the casting of the figure in bronze. It is to be an idealized woman of the Confederacy in sitting posture with a grandson at her knee to whom she is telling the inspiring deeds of the Confederacy. The monument is to be placed in position directly in front of the new quarter million dollar State building in the early Spring and President Wilson may deliver the address for the unveiling.

The general secretary of the Woman's Christian Temperance Union of California has written to Governor Craig asking that he give public warning as far as possible against women flocking to California under the impression that the preparations for the Panama-Pacific Exposition will provide lucrative employment for more women than can possibly be procured. The letter tells the Governor that there are now hundreds of women who have come to California from the Eastern States and are homeless and penniless in many instances. There are more women in California now, the letter declares, than can possibly find employment through the Panama-Pacific Exposition.

At a special meeting of citizens last night under the auspices of the Raleigh Chamber of Commerce there was final statement of the success of the movement for the establishment of a big overall factory here to open December 1st that will give employment to 150 girls, large numbers of whom have already been employed for this work. There is also a bright outlook for opening a tobacco warehouse here for the next season. W. T. Dabney, of the Richmond Chamber of Commerce, was the special speaker and his theme was "The Future Raleigh," dealing especially with the possibilities for business expansion.

A NAUGHTY SHOW.

Greensboro Committee So Report on Gertrude Hoffman and Company.

Greensboro, N. C., November 12.—That Gertrude Hoffman and her chorus of scantily-attired dancers present a show that is "vulgar, immoral, indecent and obscene" is the opinion of a committee of churchmen that was appointed to observe the performance and report to Ministerial Association and others.

The troupe was here last night and was witnessed by a record-breaking audience. In the crowd was the committee composed of Hon. A. M. Scales, ex-State Senator O. C. Wysong, president of the Wysong-Miles Company, and J. Norman Wills, treasurer of the Odell Hardware Company. At a meeting of the ministers today the committee made its report and tomorrow the committee and ministers will go before the city commissioners with a view of getting a board of censorship or some provision for preventing other shows of like character being presented here.

CLAUD KITCHEN AT KINSTON.

He is Not Worrying—Masonic Meeting—Hospital Corps to Move.

(Special Star Correspondence.)

Kinston, N. C., November 12.—Hon. Claud Kitchin, Representative from the Second district, who spent yesterday here as the guest of his private secretary, Elisha B. Lewis, said before leaving for his home at Scotland Neck that there might be opposition to his candidacy for re-election in 1914. The Congressman said that this early in the game he was "not sitting up at night" to worry over the rumored opposition. Asked if he was seriously concerned with the rumors, he stated that "when two good men are in a race there is reason for serious concern." "However," he facetiously said, "I think I am the very best man it is possible to find for the job." He had nothing to say regarding the mention of Hon. N. J. Rouse, of Kinston, as his possible opponent at the next primary, except that if Mr. Rouse did announce himself the incumbent would consider him an antagonist to be seriously reckoned with. There have been no formal announcements, but Rouse is a name frequently heard in connection with the campaign less than a year off. Mr. Kitchin did not know when Kinston's public building would be commenced, but stated: "If my desire would avail ground would be broken for that building up the street about February or March."

Masons gathered from Lenoir, Greene and Pitt counties to attend the annual meeting of the local lodge today. Grand Lecturer R. F. Edwards, of Crumpler, N. C., presided. The sessions began at 10 o'clock and were concluded shortly before dark. Hundreds of members of the order and a number of widows and orphans of Masons were dined by the Kinston members at a garage downtown. The Masons in Lenoir county number about 400.

The second detachment of the Hospital Corps, North Carolina National Guard, is to be transferred from Kinston to Newbern, it was learned today. This organization has been stationed in Kinston several years, and during the past two years there has been no resident medical officer. J. W. Shute, a sergeant first-class, has commanded the detachment. The personnel is said to be efficient, and the reason for the transfer is to have the enlisted men reside in a town where there is an officer of the sanitary troops. Dr. Raymond Pollock, of Newbern, is a first lieutenant in that service. Together with the first detachment at Asheville and the third at Reidsville, the local detachment has comprised a hospital company of several officers and 36 men, which would be recruited to 72 men in time of war. Adjutant General Young will come here the latter part of this week to make the transfer of records and property and discharge the men enlisted here.

GREENSBORO "DOLLAR DINNER."

Number of North Carolina Cities Will be Represented—Crop Rotation.

Greensboro, N. C., November 12.—Already quite a number of prominent men have accepted invitations to the "dollar dinner" to be given by the Greensboro Chamber of Commerce to Governor Craig, other State officials, members of the State Legislature and Just Freight Rate Association. Governor Craig will be the principal speaker but there will be others. A large delegation will come from Charlotte, it is said, and another from High Point. The dinner is for the purpose of discussing freight rates and railroad legislation. The dinner will be given in the dining hall of the Y. M. C. A.

Mr. E. H. Anderson, county agricultural demonstrator, is arranging to inaugurate next year a definite system of rotation of crops on not less than five farms in the county. The work will be started the coming Spring, but the plans are being made now in order to give to each farm a scientific system of rotation. Quite a number of farmers have expressed an interest in the matter and are willing to undertake the work under the direction of Mr. Anderson. The object is, of course, to show how farmers may increase their yield by a proper system of rotation.

TEN TOWNS DESTROYED.

Earthquake Last Friday in Peru Does Much Damage.

Lima, Peru, Nov. 12.—Ten towns were destroyed and several hundred persons killed in an earthquake which occurred last Friday in the mountainous Peruvian province of Aymareas. News of the disaster reached this city by courier.

The number of known dead was 120 when the couriers left the devastated district, but it was believed that several hundred more bodies would be recovered. The survivors are living in the open spaces and are suffering great privations owing to lack of food and shelter. The government today forwarded a large quantity of provisions and has appointed funds for relief.

Official telegrams report a continuance of the earthquake in the department of Apurimao. The city of Challhuanoa with a population of nearly 4,000, capital of the province, is reported in ruins. A private telegram says the deaths there number more than 200.

Apurimao is a southwestern department of Peru with a population of nearly 200,000.

Money Saved by Making Your Cough Syrup at Home

Takes But a Few Moments, and Stops a Hard Cough in a Hurry.

Cough medicines, as a rule, contain a large quantity of plain syrup. If you take one pint of granulated sugar, add ½ pint of warm water and stir about 2 minutes, you have as good syrup as money could buy.

If you will then put 2½ ounces of Pinex (fifty cents' worth) in a pint bottle, and fill it up with the Sugar Syrup, you will have as much cough syrup as you could buy ready made for $2.50. Take a teaspoonful every one, two or three hours. It keeps perfectly.

You will find it one of the best cough syrups you ever used—even in whooping cough. You can feel it take hold—usually conquers an ordinary cough in 24 hours. It is just laxative enough, has a good tonic effect, and the taste is pleasant.

It is a splendid remedy, too, for whooping cough, spasmodic croup, hoarseness and bronchial asthma.

Pinex is a most vaulable concentrated compound of Norway white pine extract, rich in guaiacol and other healing pine elements. No other preparation will work in this formula.

This plan for making cough remedy with Pinex and Sugar Syrup is now used in more homes than any other cough remedy. The plan has often been imitated but never successfully.

A guaranty of absolute satisfaction, or money promptly refunded, goes with this preparation. Your druggist has Pinex, or will get it for you. If not, send to The Pinex Co., Ft. Wayne, Ind.

INTERNAL REVENUE OFFICERS.

Collector Bailey Announces Appointments—J. R. Kennedy.

Raleigh, N. C., Nov. 12.—Internal Revenue Collector J. W. Bailey, of the Eastern District of North Carolina, announces a partial list of appointments of deputies that have just received the approval of Commissioner of Revenue Osborne, at Washington. They follow:

Chief clerk to succeed I. M. Deaton, resigned, H. M. London, Chatham county, effective December 1st.

Office deputy to succeed V. C. Garrard, W. L. Brown, Pitt county, salary $1,100, effective December 1st.

Office deputy to succeed G. E. Sutton, L. D. Meador, Alamance county, salary $1,000, effective December 1st.

Deputy to collector as expert clerk for stamps in Durham office to succeed Granthall, Walter L. Steele, Richmond county, salary $900, effective November 20th.

Field deputy to succeed C. C. Fagan, Edmund James, Martin county, salary $1,000 with $600 expenses, effective November 15.

Field deputy to succeed J. C. Cameron, Mull, Lenoir county, salary $1,000 with $600 expenses, effective November 15th.

District deputy to succeed M. L. Wood, J. R. Kennedy, New Hanover county, at a salary of $1,000 with $600 for expenses.

General deputy and revenue agent to succeed K. W. Merritt, H. G. Gulley, Wake county, salary $1,350 and $900 expenses.

General deputy and revenue agent to succeed E. P. Carter, George Taylor, Jones county, at salary of $1,350 and $900 expenses.

Temporary appointments made permanent, J. P. Stell, field deputy, salary $1,050 with $85 expenses; Mrs. W. E. Shipp, deputy collector for office service, salary $1,200; Mrs. Flora Creech, deputy collector office service salary $1,000; Bryce Little, deputy collector, duty of messenger file clerk and personal stenographer, salary $900.

RESINOL STOPS ITCHING INSTANTLY

It is a fact that the moment Resinol Ointment touches itching skins, the itching stops and healing begins. With the aid of Resinol Soap, it almost always clears away all trace of eczema, ringworm, pimples, blackheads, or other tormenting, unsightly eruption quickly, leaving the skin clear and healthy.

And the best of it is you need never hesitate to use Resinol Soap and Resinol Ointment. There is nothing in them to injure the tenderest surface. Resinol is a doctor's prescription which for eighteen years has been used by careful physicians for all kinds of skin affections. They prescribe Resinol freely, confident that its soothing, healing action is brought about by medication so bland and gentle as to be suited to the most delicate or irritated skin—even of a tiny baby.

Resinol is sold by practically every druggist in the United States, but you can prove at our expense what it will do for you. Write today to Dept. 1-M Resinol, Baltimore, Md., and we will send you by parcel post a liberal trial of Resinol Ointment and Resinol Soap.

THE MORNING STAR

Published by the WILMINGTON STAR COMPANY, INC., Wilmington, N. C.

Entered as second-class matter at the postoffice at Wilmington, N. C., under Act of Congress, March 2nd, 1874.

FULL ASSOCIATED PRESS REPORT

PUBLISHERS' ANNOUNCEMENT.

THE MORNING STAR, the oldest daily newspaper in North Carolina, is published daily except Monday, at $6 per year, $3 for six months; $1.50 for three months; 50 cents for one month, served by carriers in the city, or by mail.

THE SUNDAY STAR, by mail, one year, $1; six months, 50 cents; three months, 25 cents.

ADVERTISING RATES may be had on application, and advertisers may feel assured that through the columns of this paper they may reach all Wilmington, Eastern Carolina and contiguous territory in South Carolina.

Obituary sketches, cards of thanks, communications espousing the cause of a private enterprise or a political candidate and like matter will be charged at the rate of 10 cents per line, to persons carrying a regular account, or, if paid cash in advance, a half rate will be allowed. Announcements of fairs, festivals, balls, hops, picnics, excursions, society meetings, political meetings, etc., will be charged under the same conditions, except so much thereof as may be of news value to readers of the paper, in the discretion of the editors.

TELEPHONES: Business Office, No. 51; Editorial and Local rooms, No. 61. Call either, if the other doesn't answer.

COMMUNICATIONS, unless they contain important news, or discuss briefly and properly subjects of real interest, are not wanted; and, if acceptable in every other way, they will invariably be rejected unless the real name of the author accompanies the same, not necessarily for publication, but as a guarantee of good faith.

ALL DRAFTS, checks, express money orders, and postal money orders, for the paper should be made payable, and all communications should be addressed to, THE WILMINGTON STAR CO.

Thursday, November 13, 1913.

The worst is yet to come—that is to the turkey.

Old songs are sweetest among "The Old Folks at Home."

Lots of men hitch their political wagon to a star politician.

More and bigger pay rolls for Wilmington. Don't you forget it.

If it takes two to make a pair, how is it that a pair of pants are not two?

Nobody can become infatuated with a fat man like the picture of Tammany.

Disgruntled politicians and dissatisfied voters seem to hold the balance of power during election times.

The political ring should ring off. The people won't stand for it, for it makes them tired standing at the receiver.

The rumor that Huerta had committed suicide was greatly exaggerated. He is simply following a suicidal course.

So live your life while you are young that you can be North Carolina's grand old man when all the others are gone.

Do your Christmas shopping early by letting your wife do the shopping just as soon as you can give her the necessary money.

Some of Huerta's friends insist that he is having the time of his life in his attempt to conquer the Standard Oil Company in Mexico.

A man who can talk and talk right, can prove in the campaign next year that talk's not cheap. The school for spielers will open soon after the 1st of January.

Many a man who boasts that his wife made him what he is won't confess that she makes him do a lot of things just because she wants them done her way or not at all.

Don't kiss all the better babies you see. Wait till they grow larger and then note how seriously they object to being kissed by people who are affected with the kissing bug.

It is said that Congress and the Legislatures this year enacted 130 laws regulating railways, but the railways seem to regulate Congress and the Legislatures without any law.

A dispatch from Williamsport, Pa., says 5,000 hunters are in the mountains of Lycoming county to shoot deer. It is hardly possible that Mutt could persuade Jeff to go to the mountains of Lycoming for his health.

The Savannah Morning News on Tuesday had some timely and valuable comments to make on "Putting a check on graft." However, grafters want no check. They prefer the money, so checks cannot turn up in the future as evidence.

A Soil Products Exposition would be some show in Wilmington either in the Spring or Fall. The corn show now being held in Wilmington is ample indication of what can be expected when we attempt a fair on a larger scale.

It is announced that there were 18,000 admissions to the Tarboro fair. That indicates the great interest of the people in this means of demonstrating the resources of the country and the achievements of those who are developing the farming interests on modern lines.

Says the Newbern Sun: "The new way to obtain a Federal job in North Carolina is by running for the Senate." However, the man must develop strength enough to make him a factor in the race, in order to make it worth while to sidetrack him with something equally as good.

The women of Detroit are at work upon a plan to rid matrimony of all the elements of chance. Since "marriage is a lottery" from way back, they had better favor the enactment of a law to prohibit the taking of chances in that kind of lottery, or else do something that will appeal to the better judgment of Cupid, who is even blamed with putting the cupidity in marriage.

FOR THE SOUTH ATLANTIC, HO!

Everybody seems to be taking note of the unrivalled adaptabilities and progress of the South Atlantic States, with North Carolina forming the keystone of a group of States with the most varied and powerful resources for development. Intelligent and systematic exploitation of the marvellous adaptability of this region is all that is necessary to emphasize the tremendous advantages of this portion of the South, and what it needs is more definite purpose and not so many "movements" that are not systematically shaped and financed for business. Just as "all the world loves a lover" so all the world is beginning to get stuck on this unrivalled South Atlantic region of America. The reason is that the powerful factors for progress and development in this section are becoming more manifest every day, and it is needless to say that for more than a qaurter of a century they have been emphasized with telling effect by the Manufacturers' Record, the Southern press and many of the greatest publications in the North. The press generally, all over the country, has been compelled to take note of the progress and peculiar adaptabilities of the South Atlantic, but the able Washington Post by predilection and preference, has gotten to be a regular South Atlantic booster.

In The Post of Tuesday is a column editorial that was inspired by the marvellous advantages and achievements of this favored portion of America. Washington is in it, too, and we are proud of it, and it begins to look as if the National capital is beginning to pride itself upon being right in the swim with this militant portion of the great American Republic. The Post, in the editorial referred to, emphasized some of the reasons why two particular portions of the nation are manifesting the tremendous effect of the peculiar advantages possessed by each. One of these sections is the South Atlantic and the other is the Northwest, in which the Gulf States are included. From a gentleman who has recently made observations of the developmental factors all over the country, and who has been throughout the country looking into conditions, the Post has received a review of conditions in the South Atlantic States. He says:

"While business throughout the United States keeps well up to the high record of 1912, two sections of the country are surpassing in volume and value of transactions all records and enjoying a solidly based prosperity that bids fair not only to be permanent but to increase with the coming years.

"One is the Northwest, from the Mississippi out through Minnesota, the Dakotas, Montana, Idaho, Washington, and Oregon, and the other may be termed the Southeastern section, embracing West Virginia, Virginia, North Carolina, Tennessee, Eastern Kentucky, South Carolina, Georgia, Alabama and Florida.

"This last designated region is receiving immigrants in greater numbers per annum than ever in its history, and larger numbers of new settlers from other States of the Union; its agricultural and mineral resources are being developed to a greater extent than in any past period; its manufacturing and commercial growth is marvelously great, and the financial condition of its people never exhibited such widespread possession of the circulating medium, such ample resources with which to obtain cash or to maintain credit, as is shown at the present time.

"The productions of the soil of this section during the past year have been abundant, the aggregate much larger than in any former year, while the general range of prices for those productions has been higher. In no year or period of the past have there been so many persons profitably employed in the States named as are now busy in the cities, towns, villages, and agricultural, industrial and mineral districts of those States, and from the mountains to the ocean and to the gulf there exists an unparalleled activity in business affairs."

This is a good and true story of our progress, and the best is yet to come—progress on broader lines and development more rapid than during the past decade of achievements. We've simply got the country of countries and we ought to quicken ourselves in North Carolina so we can turn the flood of attention to this most versatile and resourceful of all the States. The immense productiveness of this section and its wonderful adaptabilities for diversified agriculture and industries is the basis of our present and future prosperity, and well may the authority quoted by The Post conclude that "take it all in all, not a section of the Union seems to be in better shape to secure and maintain permanent prosperity for its inhabitants than this group of Southeastern States."

We've got the firm foundation upon which to build and we must get at it with confirmed confidence and greater activity.

HOUSTON MUCH ALIVE AS A PORT

Although Houston is a made port, being situated in the interior on a bayou that had to be dredged so steamships could get up to the city, it is very much a live port. It is doing an immense commerce and its rivalry with Galveston is such that the great port of Galveston doing the greatest commerce of all Southern ports, had to appeal to the Texas Railroad Commission to be placed on a concentration parity with Houston in the shipment of cotton. The Texas commission has just issued such an order and it became effective yesterday. Houston had managed to get a freight differential on cotton concentrated in the interior for shipment to the ports for export. Houston really enjoyed a double concentration privilege on cotton. Galveston was discriminated against by the railroads, and at best she now only gets on a parity with the nearby port of Houston, which reaches the Gulf by way of Galveston through Galveston Bay.

Houston is a live member and all the business interests are thoroughly united in every movement to promote the commerce of a city that once could barely be reached from the sea with a batteau. Houston has not only succeeded in getting a deeper channel project on foot, but the special harbor committee has filed a report recommending that the city issue $1,000,000 in bonds to construct wharves, warehouses and terminals on a turning basin that has literally been made out of town lots that have been dredged away. The Chamber of Commerce has been making a special study of the opportunity for commerce at that port on account of the canal, and it has secured the consent of several steamship lines to run their ships up to Houston if proper terminals were built for the concentration of exports for South American and Pacific points.

Houston is a shining example of what live business men can make of their city by matching artificial development with natural advantages such as are possessed by ports with open gateways to the high seas. The amount of intelligence and vim that has entered into the development of Houston is what has made Galveston feel the presence of its enterprising next door neighbor.

OUR SOIL PRODUCTS SHOW.

Nothing presents such an object lesson of the great versatility of the soil around Wilmington as the magnificent display of corn, vegetables and other farm products that are to be seen at Wilmington's Corn Show and Art and Industrial Exhibit during these three days in the Morning Star building on Chesnut street. The farm products are exhibits of two crop seasons only—Summer and Fall—and yet they are only a few of the great crop variety to which this section is peculiarly adapted. With us there is a crop season in the Spring, and could we but have combined displays of the splendid products of each of our three crop seasons they would have even more marvelously emphasized the matchless resources of this section.

However, the real object of the show was to emphasize the corn-growing possibilities of this section, and when we see such corn as appears in the exhibits there need not be any other proof more potent to bring conviction to us upon that subject. If we needed it put to us in a stronger light, the actual achievements of the Boys' Corn Clubs and the corn growers of this section have furnished it to us in growing as much as 136 bushels of corn on one acre of land at a cost of only 21 cents a bushel. The man who knows whether he pays 90 cents or $1 a bushel for corn can figure for himself whether it pays to buy corn or to make it on his own farm. We can all estimate the profits that we can save if we only produce as much corn as the average grown per acre in the West.

This corn show is not to demonstrate that we can grow more than 100 bushels of corn per acre at a great profit when we try, but that this is a corn-growing country and that it can save money by growing corn. Those who haven't seen the proof of it should not fail to inspect the exhibit in The Star building. It will be open today and tonight, and those who wish to be inspired with the resources of this section should not lose this opportunity.

ONE RESULT OF THE TARIFF.

The Democratic tariff has served to increase prices of Canadian producers on the farms and to increase the price of meats to consumers in Europe. The reason is that it has opened a big market in the United States for Canadian producers, and given us a chance to buy meats in the South American and Australian markets that have been supplying Europe with beef and mutton. The increased demand for the products of Canada and South America have caused prices to advance there, and when a general level is secured in those countries and this consumers ought to be materially benefitted.

Dr. Hannis Taylor, high authority on international law, says the Wilson administration should recognize the de facto government of Mexico. Of course, he means Huerta, but the thing to worry about is that Huerta is no de facto government. He is a dictator and is trying to hold his own without a government that is responsible to the people. According to our idea of international law, Carranza should be recognized as a belligerent and Huerta could expect nothing short of being recognized as a very belligerent belligerent. If we were President Wilson we would be more puzzled than he is about the situation.

At the recent meeting of the American Hardware Manufacturers' Association in Atlantic City, manufacturers and jobbers agreed that there was nothing to fear from the new tariff act. Manufacturers said they will not only be able to successfully compete at home with foreign manufacturers, but will continue to find a good market abroad for American goods.

CURRENT COMMENT.

We know nothing of Mr. Justice's ability as a lawyer, but if the government puts him up against the trusts it can count on him to do all that he can do.—Durham Herald.

The United States Senate has passed a bill known as "the red light injunction bill." It is intended to enjoin and abate disorderly houses in the District of Columbia, and declare them a nuisance and assess a tax against the persons maintaining such places and against the building and the owner of it. It is a good law, and eleven States have the same kind of a law, and they have uniformly wrought out a good work.—Chester (Pa.) Republican.

The State Fair authorities do well to lose no time in making broad plans for the next exposition at Raleigh, by providing a great permanent building. They have had a big handicap in the old wooden barn which has been in use 29 years and leaks like a sieve. This fair is easily among the most successful of those in the South, even with this handicap. The addition of much space to the grounds and of excellent buildings for stock this year proved to be features which paid in many ways. People are very tired of rattle-trap buildings, ready to fall about their ears, and North Carolina and Raleigh are too progressive now to stand any longer this sort of thing. —Raleigh Times.

The cotton in the fields is now as dead as it will be in mid-January and there is no reason why the crop estimators may not arrive at approximate figures. Yet they appear to be as far at sea as they were before the frost. There have been some guesses on the North Carolina crop that are manifestly wide of the mark. In 1912 this State produced 935,000 bales from an acreage of 1,545,000. While some may not concede the fact, there was a material increase in the territory of cotton land for the crop of 1913, yet the season was not so favorable and the production was not so generous as in the previous year. In the large cotton-growing area around Robeson and Scotland, the weather did not suit the soil and the crop was a short one. On all sandy land in the State there seems to have been premature opening and a top crop failure, but on the "strong," or clay lands, cotton was up to, or above the average. There were apparent counter-balancing conditions, though those who are predicting an increase over last year are going to be discredited as prophets. Even those who have gone on record for a million bales are likely to lose out. The Observer thinks the North Carolina crop will reach the neighborhood of 900,000 bales, or the ginners' reports are not to be depended upon.—Charlotte Observer.

FEDERAL POINT ROAD.

To the Public:

I have read the article addressed to the public, in last Sunday's issue of The Star, over the signature of M. S. Willard, chairman of the Board of County Commissioners of this county, with a great deal of interest, as I am personally a large tax-payer in New Hanover county and represent interests which are also large tax-payers, principally along the Federal Point road, with which his article chiefly deals.

I am gratified as a property owner in that district, to read that "one of the most definite ideas of the writer when he became connected with the road work, was to get a good road into the lower end of the county, and this idea has never changed in the slightest," also that "when this entire loop was completed, the work was taken up (without any suggestion from those now interested) on the building of the good road towards Carolina Beach. This work has been carried on continuously up to the present time and will, no doubt, be continued until finished, as contemplated in the beginning."

It seems to me that there can be no mistaking this language, and the people in that section will hold Mr. Willard to this statement.

The company I represent, and the New Hanover Transit Company, have on three different occasions undertaken, by reason of financial inducements, to hurry the completion of this road, as we feared with a force of 20 men, which Mr. Willard states he is now working on the road, and which he expects to keep on the road, that the road would not be completed for two or three years, or possibly more. Mr. Willard offered several suggestions which he thought would be entertained if the companies above referred to were to submit to them, and acting upon his recommendation we submitted three different propositions, all of which, for some reason or other, notwithstanding the recommendation emanated from Mr. Willard, were declined.

Mr. Willard states in the article above referred to, that "the only definite proposition we have received, which was in such shape that we could have accepted it, was to contract the stipulated road for $1 per square yard. This would have cost $11,773 a mile, not including the grading, which the county was expected to do." I assume this statement is correct, but from my experience with the little road building I have had to do with, I am willing to make Mr. Willard one more definite proposition, which will be the second definite proposition he will have received.

I will guarantee to make a contract with the county to construct a hard road equal to, or superior to, any road in the county for $5,500 per mile, 15 feet wide, not to include the grading, which the county is expected to do, with the understanding that the county will transport my gravel from the Belt Line of the railroad to and alongside the road, free of charge, and guarantee to keep the road graded one city block ahead of me at all times.

If this offer is accepted I will guarantee to complete the road to the southern end of Wilmington Beach, a distance of less than eight miles, by July 1st next, and give a satisfactory bond, within 24 hours, binding me to carry out this proposition.

Mr. Willard also states "if we had accepted this proposition and deducted the $1,600 offered us by individuals, we would have expended very nearly all of our recent bond issue on this one road. I really believe we would not have found a citizen who is a tax-payer of any large amount who would have approved this."

In conclusion, since this second definite proposition will cost the company less than one-half the cost under their first proposition, and since it guarantees the use of not over $44,000 instead of, as he claims, practically $100,000, which I understand was the amount of his bond issue, I shall look for this offer to be accepted at once. C. E. GREENAMYER.

GIVEN AUTOMOBILE RIDE.

Dr. J. Y. Joyner Shown City Yesterday Afternoon—Appreciates Growth.

Dr. J. Y. Joyner, of Raleigh, who spent the day here yesterday, was given an automobile ride yesterday afternoon over the principal roads leading into the city. He was taken to Wrightsville Sound, and also visited schools in the city. He was greatly impressed with the growth of the city during the three years that have elapsed since his last visit here. He was particularly impressed with the new union station. Those in the party included Messrs. B. Solomon and J. G. L. Gieschen, members of the County Board of Education; Prof. Washington Catlett, county superintendent of education; Mr. J. J. Blair, superintendent of the city schools; Mr. F. B. Arendell, of Raleigh, and Mr. Hutson. The ride was made in Mr. Gieschen's car and one belonging to Mr. W. D. MacMillan, Jr. Dr. Joyner left last night for Raleigh.

Mrs. M. E. Humphrey Dead.

Word was received here yesterday of the death of Mrs. M. T. Humparey, wife of Mr. Henry W. Humphrey, which occurred at 5 o'clock yesterday morning at the family home at Richlands. She was 75 years old. The funeral will be held at 3 o'clock this afternoon, and interment will be in Koonce graveyard.

CONFER WITH TRUCKERS.

Congressman John Faison Will Visit Wilmington Tonight.

The Chamber of Commerce yesterday received word from Dr. John M. Faison, Congressman from the Third district, stating that he would be here tonight to hold a conference at 8 o'clock at the Orton Hotel with the truckers of this vicinity in regard to the hearings to be held in Wilmington November 24th and 25th by Mr. Boyle, an attorney of the Inter-State Commerce Commission, on the question of faster and better refrigerator express and freight train service for the berry and vegetable crop. The use of the rooms of the Chamber of Commerce will be tendered to Congressman Faison for the conference. The matter to be discussed is one of vital importance to all the truckers and Congressman Faison hopes that as many truckers as possible will be present and take part in the meeting. Notices have been sent out by Congressman Faison to many truckers in this neighborhood and it is expected that there will be a large attendance tonight.

EXCURSION TRIP POSTPONED.

Philadelphia Business Men Will Make Tour Later in the Winter.

The Star last night received a letter from Mr. C. W. Summerfield, secretary of the Philadelphia Trade Expansion Excursion Committee, stating that the fifth annual trade expansion excursion, which was to have toured parts of the Southern States November 17th-22nd, inclusive, had been postponed for the present. This was made necessary because many of those who contemplated making the trip found that it would be inexpedient for them to leave the city at this time. Mr. Summerfield advises that the excursion will be run later in the Winter, announcement of which will be made in ample time. The excursion was to have reached Wilmington next Tuesday afternoon at 5 o'clock, to remain until 11 P. M., and plans were making for the entertainment of the party of 75 prominent Philadelphia business men.

WALTER JAYES DEAD.

Former Member Eastern Carolina Baseball League Died in N. Y.

The following from the current issue of Sporting Life, will be of interest to many friends of Walter Jayes, who will be remembered as a popular member of the Wilmington team of the Eastern Carolina Baseball League in its second year:

"Walter Jayes, who played with the Bay City team in the Southern Michigan League this year and before that had been in the Michigan State, the Carolina, South Atlantic and Virginia leagues, died at his home in Buffalo, October 7th, from injuries received in an automobile accident. He was on his way to play in a ball game at Warren, N. Y., when the auto was wrecked. Jayes was born in 1887 and had been playing professional ball for five years."

Chamber of Commerce.

The regular monthly meeting of the Chamber of Commerce will be held this afternoon at 4 o'clock. A number of matters of importance will probably come up for consideration and a large attendance of the members is urged.

Old Time Sores And Ulcers Healed

Old Wounds Often Bother Many Years After.

People who have been poulticing and anointing an old sore for years and years marvel at the way it heals quickly after using S. S. S.

When you come to realize that the skin and the flesh beneath are composed of a network of tiny blood vessels you solve the mystery.

There are wonderful medicinal properties in S. S. S. that follow the course of the blood streams just as naturally as the most nourishing food elements.

It is really a remarkable remedy. It contains one ingredient, the active purpose of which is to stimulate the tissues to the healthy selection of its own essential nutriment. And the medicinal elements of this matchless blood purifier are just as essential to well-balanced health as the nutritious elements of the meats, grains, fats and sugars of our daily food.

Not one drop of minerals or drugs is used in its preparation. Ask for S. S. S. and just insist upon having it. And if you desire skillful advice and counsel upon any matter concerning the blood and skin, write to the medical department, The Swift Specific Co., 210 Swift Laboratory, Atlanta, Ga.

Do not allow some zealous clerk to larrup the atmosphere in eloquence over something "just as good" as S. S. S. Beware of all substitutes.

Thousands of Women

Have Been Restored to Health By Lydia E. Pinkham's Vegetable Compound.

There is no doubt about this fact. Why? during the last 30 years we have published in the newspapers of this country volumes of letters from women who have been relieved of all their suffering by the timely aid of this grand old medicine. Letters like the following, true, genuine and honest expressions of gratitude coming from grateful hearts. **Surely you can believe these women.**

Mrs. L. S. BRENNER, Hudson, Mich., says:—

"Sometime ago I was taken with a terrible pain in my right side, such sharp pains just like a knife sticking me. I tried hot applications but that did no good. I went to our family doctor (we were living in Fayette, Ohio, at that time) and he said it was organic inflammation. I doctored with him a while but kept getting worse. The pain was so terrible I could hardly stand on my feet. I would have that sharp pain in my right side, and a dull heavy pain the whole length of my limb. I realized that something had to be done quickly, so I looked up all of your advertisements I could find, and saw several that described my case. I got a bottle of Lydia E. Pinkham's Vegetable Compound and it helped me from the first dose, and when I had taken two bottles my trouble was gone. Your medicine has done so much for me that I am willing you should publish this letter for the sake of other suffering women."—Mrs. L. S. BRENNER, Hudson, Michigan.

Mrs. L. E. BOWERS, Girard, Pa., says:—

"I take pleasure in informing you of what Lydia E. Pinkham's Vegetable Compound has done for me. I had a sick spell last February, and for some months after that I was not reguiar and had many bad feelings. I was tired all the time, had dull headaches, not much appetite, and also what the doctor called organic inflammation. Your Vegetable Compound has entirely cured me and I feel that too much cannot be said in its praise as I am now able to do my own work. You are perfectly welcome to use my testimonial for the benefit of others."—Mrs. L. E. BOWERS, R.F.D. No. 1, Girard, Pa.

Mrs. ELIZABETH GENTILCORE, Buffalo, N.Y., says:—

"I feel that I must write to you about your wonderful remedies. About ten years ago I was troubled with female weakness and was all run down. I was tired all the time and could hardly walk without feeling dizzy. I heard about Lydia E. Pinkham's Vegetable Compound, took it, and also used the Sanative Wash. I got stronger, and have not had those dizzy spells since. I feel that I owe my health to you, and hope your remedies will help others as they have me. I tried most everything I heard of, and yours are the best medicines for women's ailments."—Mrs. ELIZABETH GENTILCORE, 26 Glor Street, Buffalo, New York.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No one sick with woman's ailments does justice to herself if she does not try this famous medicine made from roots and herbs, it has restored so many suffering women to health.

Write to LYDIA E. PINKHAM MEDICINE CO. (CONFIDENTIAL) LYNN, MASS., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.

You Need a Tonic

There are times in every woman's life when she needs a tonic to help her over the hard places. When that time comes to you, you know what tonic to take—Cardui, the woman's tonic. Cardui is composed of purely vegetable ingredients, which act gently, yet surely, on the weakened womanly organs, and helps build them back to strength and health. It has benefited thousands and thousands of weak, ailing women in its past half century of wonderful success, and it will do the same for you.

You can't make a mistake in taking

CARDUI

The Woman's Tonic

Miss Amelia Wilson, R. F. D. No. 4, Alma, Ark., says: "I think Cardui is the greatest medicine on earth, for women. Before I began to take Cardui, I was so weak and nervous, and had such awful dizzy spells and a poor appetite. Now I feel as well and as strong as I ever did, and can eat most anything." Begin taking Cardui today. Sold by all dealers.

Has Helped Thousands.

——114 NO. SECOND ST.——

ADDRESS BY DR. J. Y. JOYNER

Second Day of Corn Show and Industrial Exhibit Featured by Splendid Addresses—List of the Prize Winners.

All day yesterday the building in which the New Hanover Corn Show and Fine Arts and Industrial Exhibit is being held was filled to its utmost capacity with the hundreds of people from the city and county who came to see the splendid display of exhibits. Addresses by Dr. J. Y. Joyner, of Raleigh, State superintendent of public instruction; Mrs. Jane S. McKimmon, director of the Girls' Canning Clubs of the State; Miss Edith Royster, of Raleigh, and Mr. C. R. Hudson, of Raleigh, formed an important part of the programme and were heard with the greatest interest.

The addresses of the morning were made in the Academy of Music. On account of a delay in the arrival of the train on which Dr. Joyner came the exercises did not begin until 11:30 o'clock. Dr. Joyner facetiously remarked in beginning his address that the Corporation Commission was aboard the train on which he came to Goldsboro, and that this might have been responsible for the failure of the trains to run on time.

Unfortunately the cold weather and the lateness of the hour for beginning the addresses kept many away from the exercises in the opera house. The heating apparatus was apparently in bad order and made it a bit uncomfortable, and some who wished to hear the addresses left on account of the cold. The majority of those present were school children but they were greatly benefitted as the addresses were full of inspiration and practical suggestions.

Dr. Joyner Introduced.

Prof. Washington Catlett, county superintendent of education, introduced Dr. Joyner. He recounted the splendid progress that has been made along all lines in the last few years, especially among the teachers of the State, and paid a tribute to the prominent part which Dr. Joyner has had in this work. As an educational leader he has become known not only throughout the length and breadth of North Carolina but all over the country. He spoke of him as "our chief," and gave expression to the high regard that the people of this section have for him.

The address of Dr. Joyner was along educational lines, and was marked by simplicity of language and clearness of statement and yet at the same time shot through and through with the eloquence that comes straight from the heart. In beautiful words of praise he pictured Wilmington as the city by the sea where are clustered many of the fondest traditions of the State's history.

While always glad, he said, to visit this city it had been some time since he had passed this way, his last visit having been on the occasion of the opening of the Isaac Bear Memorial School building. He eulogized the character of Mr. Sam Bear who gave it and who leaves behind a monument to himself that will live forever in its hallowed influence. As an example to those who would be philanthropic it was one of the great events in the educational life of this section.

The Greatest Thing.

The education of a little child that shall prepare it for life is at the bottom of the progress of every Nation, of every State and every county, he said, and, therefore, we should be interested in developing every faculty. "I have heard of the vast resources of our State until I am tired of it," he continued, "and while I know that we have immense mineral wealth, rivers with tremendous untold power locked in them as they run down to the sea, fertile fields that have been undeveloped in many cases and even the broad sea with its manifold number of fish and other food products I submit that the greatest thing is the training of the mind and heart of the children for upon these must depend all other resources."

He showed the changed conception of education of the present day. Formerly education simply meant a sharpening of the mental faculties or in other words there was only one kind of education for all sorts of people but today we have many different kinds of education for all classes of people. He contrasted education with ignorance showing how the former means power, light and freedom while the latter means weakness, darkness and bondage.

The three great things involved in education, Dr. Joyner continued, are money, mankind and mastery. Owing to the shortness of the time that he had to speak he only discussed the first topic. The only way to make money out of matter, he declared, is to mix brains with matter. By some education of this kind is termed agricultural and industrial education. The unskilled human hand in the markets of the world, he said, is nothing more than a mere monkey's paw while the skilled hand, which is the hand guided by a trained brain, always commands money, power and influence.

He contrasted North Carolina with Massachusetts, showing how education has helped the latter and the lack of it has held back the former. Massachusetts is only one-seventh the geographical size of North Carolina and has a sterile soil, cold climate and no natural resources except granite and iron while North Carolina has a fine climate, fertile soil, vast mineral wealth, timber and great water power. And yet Massachusetts has ten times as much wealth per capita as North Carolina, he said. They have grown rich amidst poverty while we have remained poor in the midst of plenty. There is only one explanation for this and that is in education.

In Massachusetts less than one-half per cent. of the population is illiterate while according to the census of 1910 12 per cent. of the white population of North Carolina were illiterate. That great progress is being made is shown by the fact that in 1900 the per cent. of illiterate white population was 19 1-2 per cent. He gave a number of illustrations, showing how we have allowed others to come into our midst and by reason of their greater and better training have taken our unfinished products and made them into finished products. They have sold them for high prices while the people who owned them have sold the raw material for a mere pittance.

In conclusion he touched briefly upon manhood and mastery without which all education is a failure as money should only be made with the object of being used to develop all the higher faculties.

Girls' Canning Clubs.

Mrs. B. T. Hopkins, chairman of the Household Economics Department of Sorosis, introduced Mrs. Jane S. McKimmon, in a short address in which she briefly reviewed the history of the present agitation for better training in domestic science. "In the rural schools it has been impossible

(Continued on Page Two.)

FINISH MURDER CASE TODAY

Thomas Dupree Placed on Trial for His Life Yesterday in Superior Court—Other Cases Tried.

Charged with murder in the first degree of George Nixon, colored, whom he shot and killed at the Pocomoke factory late on the afternoon of October 6th, Thomas Dupree, colored, was placed on trial for his life in Superior Court yesterday afternoon. The jury was selected and one witness examined before court adjourned for the day. There are only a few more witnesses and it is expected that the case will go to the jury about noon.

Dupree admits the killing, but pleads self-defense. The shooting is said to have followed a game of cards. Nixon was shot three times. Dan Dicksey, 15-year-old colored youth, was the witness examined yesterday. He said that besides the defendant and Nixon there were present in the house where the game of cards was being played Will eBery and Hattie Bluford. The last named two are witnesses in the case and will be examined this morning. They entered a plea of guilty Tuesday to a charge of perjury in testimony given by them before the coroner's jury in connection with this case. Judgment has not been pronounced upon them.

The defendant Dupree is represented by L. Clayton Grant, Thos. W. Strange and K. W. Burgwin, Esqs.

The following were selected as the jury: C. W. Watkins, J. I. Lockfaw, R. L. Jackson, W. D. Weathers, A. F. Gibson, C. S. Lewis, W. D. Colwell, W. D. McCaug, J. E. Gordon, T. D. Piner, B. F. Brittain, Jr., and T. J. Pratt.

In the case against J. H. Vereen, charged with false pretense, the defendant was called and failed; judgment nisi sci fa and capias. A case against Sis Baldwin, colored, charged with nuisance, was continued. H. Eversen was found guilty of peddling without license. As soon as the verdict was returned Abe Dlugin and Nathan Shain, charged with similar offense, entered pleas of guilty. Judgment has not been pronounced. Eleven defendants entered a plea of guilty to a similar offense a few days ago and prayer for judgment was continued upon payment of the costs. Carrie James was found guilty of violating the prohibition law. There is still another case against her for selling whiskey.

A true bill has been returned by the grand jury charging John Carter and Mrs. Lillie Johnson with living together in illegal relations. Not a true bill was found in an indictment against Dave Sidbury and Ida Payne, charging a similar offense. Virgil Levan has been indicted for storebreaking. A true bill was found against Dave Sidbury, colored, for assault with deadly weapon.

O. HENRY MEMORIAL TOUR.

Norman Hackett's Generous Offer—Here in "A Double Deceiver."

Beginning on November 18th and lasting until December 3rd, the able American actor, Norman Hackett, star of "Classmates," "Beau Brummel," and "Satan Sanderson," will produce in North Carolina cities "A Double Deceiver," based on O. Henry's well known story, "A Double-Dyed Deceiver." The story has been admirably dramatized by Prof. Donald Stuart, of Princeton University. This play will be produced in Wilmington on November 27th. It is now winning in a beautiful production, marked success wherever it is being played.

Inspired by his admiration for the late William Sidney Porter (O. Henry), Mr. Hackett now offers, in collaboration with the people of North Carolina, to make a liberal contribution to the fund for a memorial to O. Henry. His offer is to give a generous proportion, specified, of the gross receipts from every performance of "A Double Deceiver" in North Carolina.

This is a direct appeal to the patriotism of all North Carolinians. In assuring Mr. Hackett capacity audiences throughout the State, North Carolinians will accomplish two results: First, they will enjoy a delightful play, beautifully produced, by a fine cast, the first play yet given in this State, based upon the work of North Carolina's greatest literary genius; second, they will contribute, in the most effective popular way, towards the erection of an enduring memorial of national significance, to North Carolina's great literary figure of international renown.

As demonstration of the high merits of "A Double Deceiver," which is now in its second successful season, I would cite the estimate by Mr. G. P. Goodale, the capable critic of the Detroit Free Press:

"The play is well made, ably written, interesting, absorbingly so, strong of grip, seasoned with a good quality of wit, marked by character studies that show minute observation and accurate knowledge of matters beyond our own border, and tactfully charged with comedy. It has unmistakable and exceptional literary merit.

"The representative public that comprised yesterday's audience instantly appreciated the results of the dramatist's work. Every phase of it was hailed with enthusiasm; and when, at the close of the second act proper, there was instant applause from every corner of the auditorium, and Mr. Hackett delivered himself of a tactful and neatly framed speech in propria persona, the public's pleasure in the proceedings was obviously much accentuated.

"The actor's youth, physical equipment, and temperament enable him to get into the character with graceful facility, and he plays it all through with feeling, dash and whole-hearted enjoyment. The supporting cast is notably adequate."

If the citizens of Wilmington will only avail themselves of this exceptional opportunity, the result will be an audience for "A Double Deceiver" which will reflect credit upon the patriotism of the citizens and assist materially in the erection of a worthy memorial to O. Henry.

ARCHIBALD HENDERSON.
Chapel Hill, N. C.

Real Estate Transfers.

Deeds were filed for record yesterday as follows: Fannie G. Pritchard to Thos. W. Davis, trustee, for $150, lots 41 and 42, Villa View; O. O. Whitehead and wife to H. F. Wilder and J. VanB. Metts, for $1,000 and other considerations, lot on south side of Dock street, 111 feet west of 15th, 36x90 feet in size; J. VanB. Metts and wife to O. O. Whitlock, for $1,000 and other considerations, lot on northwest corner of 15th and Dock streets, 45x120 feet in size; Geo. W. Smith and wife to Mary Jane Blatz, for $2,000, lot on east side of Second street, 198 feet south of Castle, 33x165 feet in size.

C. H. Fore & Co., are showing a great selection of furs.

PRIZE WINNING BABIES

Announcement of Those Who Received Honors in Contest—Edwin Taylor, Jr., of Winnabow, Gets First Prize.

Edwin W. Taylor, Jr., of Winnabow, Brunswick county, won the first prize in the Better Babies Contest in connection with the Fine Art and Industrial Exhibit and Corn Show. Announcement of the prize winners was made yesterday. The Taylor child made a score of 99.5, therefore winning what is known as the sweepstakes prize.

The medal given by the Woman's Home Companion for the baby scoring the highest will therefore go to Edwin Taylor. The future prominent citizen of Brunswick also wins the first premium on a 20-year life insurance policy, offered by Thos. D. Meares, Esq., local agent for a Baltimore company, to the father of the child winning in the contest. The baby is to be made the beneficiary in the policy.

Mothers are asked to bring their babies to the Art Exhibit and Corn Show in the building formerly occupied by the Southern Express Company, some time today.

Below is given a complete list of the winners in Classes A, B, C, and D, as announced by the chairman of the committee in charge of the contest. The babies in Class A will be given pins as prizes; in Classes B and C spoons, and in Class D, cups will be presented. The winners in the different classes follow:

Class A—City, Wilbur D. Hill, 98.0; 614 South Sixth street; rural, Annie May Bishop, 98.5, Manhattan Place.

Class B—City, Charles Haywood Harker, 98; Bladen street; rural, Edwin W. Taylor, Jr., 99.5, Winnabow, N. C.

Class C—City, Edward Stephen Grady, 99, Nun street; rural, Julian Taylor, 97.5, Carolina Heights.

Class D—City, Harrie May Goddis, 98.5, 221 Market street; rural, Bernard Baker, 91, Carolina Place.

Echo Farm Milk—Cadwell Williams, 97.1, 315 North Fifth street, who wins $10 as a prize and Mildred Einstein wins a prize of $5, offered by Mr. A. O. McEachern.

The babies which scored 95 per cent or more are as follows:

Helen Struthers Benson, Harrie May Goddis, Helen Virginia Goodman, James Mathers, Marion Turner, Herbert Lynch, Edward S. Grady, Marion E. Tolar, Ray Neil Moore, Jr., Lloyd Wm. Moore, Julian Taylor, Cadwell Williams, Mildred Einstein, Mary B. Williams, Virginia L. Benton, Gillespie S. Evans, Henry Burbank Rehder, Susan L. Carr, Wm. Worth Merritt, Wm. H. Shelby, Mary Hill Cowan, Ethel Burr Hall, Allen Hallett Whitehead, Margaret Augusta Muhler, Laura Dell Moore, John Rehder, Moore, Wm. D. Hill, Charles Haywood Harker, Adrian C. Croom, Louise P. Croom, Luola Kirby, Florence Lillian Bowden, George Rogers Huntington, Bernice Moore Schulken, Robert Kelly, Hannah Elizabeth Boylin, Wm. Eugene Farris, Gene Elizabeth Hunt, Wm. Francis Gilbert, Thomas Arthur Darby, Samuel George Hatch, Alfred Creauteau, Joseph S. Newton, Jr., Genevieve Galvin, James D. Loughlin, Charles B. Davis, Annie May Bishop, Edwin W. Taylor, Ray S. Lander, Anna C. Baker, Herbert William Harrell, Mary K. Morris, Addison Hewlett, Jr., Leltoy Woodbury, John Dudley Straine, Walton B. Walters, Sigmond Solomon, Oliver Wiggins, James Henry Shannon, Wm. P. Emerson, Lillian J. Ward, Agnes Kelly, Everett Allen, George C. Nurnberger.

REPORT OF INQUEST.

Cornelia Pollock Died from Wound Inflicted by Unknown Cause.

The coroner's jury which has been investigating the death of Cornelia Pollock, colored, who was found on the tracks of the Tidewater Power Company near Delgado village last Friday night, returned a verdict yesterday afternoon that she died from a wound on the back of the head inflicted from source unknown to the jury. Their verdict was based largely on the testimony of Dr. John Thames, assistant county health officer, who made an autopsy of the body.

He was the only witness examined yesterday. He testified that he examined the body and found the head crushed, the top of the skull removed from the body and a few other bruises on the body. The character of this wound, he stated, was in every particular similar to a wound that was made after death. There was no evidence of poisoning.

Further examination showed, he continued, that there was a wound at the base of the brain that was evidently inflicted before death. A wound inflicted before death, he said, would be everted and there would be effusing of blood, mostly arterial blood, in adjoining tissues and there would be coagulation. A wound inflicted after death would not be everted and there would be no effusing of blood in the soft parts of the tissue and there would be no coagulation.

There was no evidence of foul play, and the two negroes, William Dore and Wiley Hill, who have been heldin jail pending the decision of the jury, were released yesterday afternoon. The general opinion of those who have heard the evidence is that the woman was drinking and probably fell on the track. It is entirely possible that she could have struck her head on the end of a cross-tie.

THE WHITNEY CONCERT.

Something of Big Musical Attraction at Boys' Brigade Armory.

Tickets for the concert to be given in Wilmington next Monday night by Mr. Myron W. Whitney and Miss Marguerite Valentine, at the Boys' Brigade, will go on sale Saturday morning at Munson & Co.'s, where they may be secured for 50 cents each. This is said to be half the usual price for such concerts, but in order that a large crowd may hear these musicians this low price of admission will prevail.

This will be the third visit of Mr. Whitney to Wilmington. The first time he came with the great Nordica, with whom he toured America and Europe in her famous trip around the world, several years ago, a trip which brought fame and wealth to both singers. This is a return visit of Miss Valentine, who took her hearers by storm last Spring, while here, and her return is hailed with delight by all those who were fortunate enough to hear her at that time.

Their programme will be varied from that of a few months ago. Some of the best selections will be retained and other good ones substituted for those which were found not so satisfactory. It is doubtful if two more really pleasing musicians ever visited this city than these.

Our new stock of furs are now ready for your inspection. C. H. Fore & Co. (advertisement.)

WARM SESSION OF COUNCIL

Health Department Budget Still Being Discussed—Agree to Hold Conference With County Commissioners Today.

In regular weekly session for two hours yesterday morning the City Council again discussed, and at times with a show of no little feeling, the new health budget with particular reference to the salary of the superintendent, but finally decided to meet the County Commissioners in conference as requested, this afternoon, on the item in the budget for sanitary police; decided also to hear the Commissioners on the proposition for re-adjustment of charity appropriations; took to task Chemist Catlett for sending to Washington an official communication relative to the water supply, leaving the impression, in the opinion of some of the Councilmen, that the present administration was to blame for all shortcomings of the waterworks plant; heard a statement from Mr. Catlett disclaiming any such intention; discussed with Engineer John Sweeney, of the waterworks plant, proposed improvements; decided to change the hour of meeting from 10 A. M. to 4 P. M., and transacted other matters of minor importance.

The question of a conference with the County Commissioners was discussed at the outset. Councilmen Chadwick, Loughlin and Wood readily assented; Councilman Jones did not oppose if the conference was to be confined to the item with reference to the sanitary police; Councilman Merritt could see no occasion for the conference as the budget as passed by the Council was practically the same as agreed to by the Commissioners in conference last Summer, and observed also that the published statement of the Board of Health distorted the facts, as it was plainly stated in the communication sent to that body that the health officers were to be under the supervision of Dr. Nesbitt. It was finally decided to meet with the Commissioners in joint conference and 4 o'clock this afternoon was fixed as the hour, the time having been left with the Council by the Commissioners.

Bone of Contention.

In the discussion Councilman Wood said he could see no good to come of the conference as Dr. Nesbitt's salary was the bone of contention and personally he would never agree to pay him one cent more than $2,500 a year and declared his firm conviction that he is not worth nearly so much as that. Furthermore, he proposed that the city engage its own physician and let the county do likewise or do without. Money appropriated for the salary of Dr. Nesbitt is just like dumping so much money in the Cape Fear river, was the way he put it. He goes to his office at 10 A. M. and spends only a few hours a day there, he said. The controlling reason, he said, that caused the legislators to change the health bill was in order to give the opportunity to reduce the salary of Dr. Nesbitt, which, he said, is desired by a majority of the people. As for himself, he would suffer the amputation of his right arm before he would vote to pay him $3,000 a year. He did not consider the Council bound by moral obligation by reason of the committee agreement in view of the amendment to the health bill, claiming that this abrogated any agreement that existed between the two bodies. Everybody knows, Councilman Wood said, that Dr. Nesbitt and Mr. Catlett are doing everything they can against his department (Water and Sewerage Department). He said that it was general talk on the streets that this is so.

Duty to the People.

Councilman Jones said that he considered the moral obligation of the Council was to the people of Wilmington and for his part he was going to live up to it as best he could.

Councilman Merritt said that he was "going to stand pat," conference or no conference. Councilman Loughlin stated that the Council could not afford to decline to meet the Commissioners in conference. It was then agreed that the conference will be held.

Councilman Wood was not pleased that the Board of Health had voted Dr. Nesbitt a vacation of four weeks. He thought that the salary should not go on while he is away.

That Agreement.

Later on in the proceedings the question of the agreement entered into between a joint committee of the Council and Board of Health not to disturb the salaries of the officials of the health department until the end of the fiscal year, was brought up by Councilman Chadwick, a member of the committee, who argued that the city is morally bound by that agreement and urged the Council to stand by it.

"When did you come to consider it a moral obligation, Mr. Chadwick; your mind seems to wander a great deal?" inquired Councilman Merritt.

Councilman Chadwick explained that his position all along has been that if the amendment to the health bill did not abrogate the agreement the city should stand by it if the Board of Health should insist upon it.

Councilman Merritt asserted that he did not consider it a moral obligation; that he was after saving money for the city; that he had saved the city money in the operation of the scavenging department in the two months his department has been handling it; that the shaving of the health budget will result in a further saving to the city.

Councilman Jones said he had been consistent in his position against paying Dr. Nesbitt a salary of $3,000 a year; that he did not have anything personal against Dr. Nesbitt; but that he thought the position should not pay more than this amount; that as far as the agreement and the moral obligation is concerned, he could only repeat what he had said that the moral obligation rests upon Council to serve the city; that 75 per cent. of the people of Wilmington are against the payment of the proposed salary to Dr. Nesbitt and he proposed to represent the people. Councilman Jones declared that from what he could gather $2,500 a year was an adequate and fair salary for the position. It is a duty the Councilmen owe to the taxpayers not to vote more, he said.

Councilman Wood said he would stand by the proposition to pay not over $2,500 a year. He called attention to the fact that in Durham the superintendent of the consolidated city and county health department gets only $2,500 a year, has no assistant and has more territory to cover than is required in this county. Councilman Wood said that the Board of Health has appealed to the public; he would be glad to let the public settle it at the ballot box.

Other Matters.

The resolution declining to appropriate anything toward the construction of a bridge over the tracks of the Seaboard on Fourth street at Hilton, adopted at a recent conference, was formally passed, Councilman Jones alone voting against it, explaining that he considered the proposition of the railroad a fair one and should be accepted.

Application of the Tidewater Power Company for permission to construct a double left hand track from 17th street, between Market and Dock, into Carolina Heights at Perry avenue, went over to a conference. The question to be determined is whether or not the switch, for it is little more than a switch, will constitute a material change or addition to the present rights of the company.

Health Department Audit.

Capt. Thos. D. Meares, city clerk and treasurer, stated that he had received a copy of something that appeared to be a report of the auditor of the books of the health department. He explained to the Council that it "was poked in here by an employe of the health department without any official communication." He said further that it was probably sent in response to repeated requests for information as to the scavenging funds, but that no official communication accompanied it to this effect.

Councilman Loughlin, who apparently was right much irritated, stated that Capt. Meares could tell what it was; that he had a copy before him and besides it was printed in the morning paper; furthermore, he considered it the business of the Council to take exception to such things rather than the business of the clerk.

Captain Meares said that the question was that the document had not come over in a regular manner; it should have been accompanied by an official communication, he said.

Consideration of the report was not gone into, a suggestion having been adopted that copies be made and furnished the several members of the Council.

Upon motion of Councilman Jones, on the recommendation of Chief Schnibben, Mr. D. J. Wright was elected a member of the fire department, he having passed the civil service examination. Permission was given for an increase in the salary of Messrs. A. H. Simmons, N. H. Davis and B. N. Horn from $45 to $50 a month. No extra appropriation was necessary, as the increase will be taken care of out of the budget for this year.

Mr. G. T. Williamson, superintendent of fire alarm, requested the purchase of a set of harness and a light wagon, the buggy which was purchased for him some time ago being practically out of commission. Action was deferred.

Short Police Force.

Chief of Police Williams called the attention of the Council to the fact that the police force is smaller than it was a few years ago notwithstanding the increase in population. Where there were formerly 42 police officers there are now 34. Two of this number are off duty on account of sickness most of the time. There is a recent law that provides for full pay of officers while off on account of sickness, hence the department is deprived of a former source of funds with which to employ substitutes in case of sickness of members. Attention was called to the need of extra men on account of violations of the traffic ordinance. Councilman Jones stated that Judge Rountree delivered a supplementary charge to the grand jury Tuesday with regard to traffic conditions in the city. He asked permission to employ at least one extra man for this work. The request was granted.

The Council ratified the award to Mr. J. L. Becton of the contract for the construction of a roadway to the plant of the Clarke-Lynch Lumber Co., at 24 3-4 cents a square yard.

Councilman Merritt reported that the sewerage contractors are leaving some of the streets in bad condition and due to this fact the fire apparatus got "stuck" up on Brunswick street, between Seventh and Eighth, Tuesday night. The matter was referred to the city engineer.

A resolution adopted a few weeks ago giving the Southern National Bank 60 days in which to improve the sidewalk alongside its building, corner Front and Princess streets, on the Princess street side, was rescinded. The city will expect the sidewalk to be improved at once.

Again Held Up.

The resolution voted on at the special meeting Monday providing for an appropriation of $3,000 with which to begin the work of sinking deep wells, was amended so as to make it a health measure and containing a statement of its urgency. As objection was raised by Councilman Loughlin the resolution as amended goes over to the next meeting, regular or special, when the Council may pass it and put it into immediate effect.

There was a somewhat lengthy discussion of the waterworks plant, the pollution of the water and when it began, the improvements contemplated and the efforts being put forth to make these improvements, but nothing new of material interest to the public was brought out.

Councilman Wood asked Chemist Catlett to furnish his office with a copy of the daily analyses of the water supply, which Mr. Catlett agreed to do.

For the Ladies

This bank provides every modern convenience for the transaction of their banking business.

In our Ladies Department you will find Teller's Windows, Private Writing Room, Telephone, Stationery and other conveniences.

We will appreciate your account.

Old and Strong.

The PEOPLE'S SAVINGS BANK

Corner Front and Princess Streets

WHERE ARE THEY NOW?

In your time, you have seen a good many spendthrifts—the good fellows, as they are called.

Where are they now? We don't need to tell you.

Then—the fellows who worked hard and saved their money slowly until they had backing capital—where are **they** now?

They are the employers—the spendthrifts are the employed. This doesn't imply that every employe is a spendthrift; the hard-working, thrifty laboring man is the back-bone of this and any other community. But **every man who saves can become his own boss.**

We'll help you along by welcoming small deposits, guarding your interests safely and giving you the very best of courtesy and modern scientific banking service.

D. D. D. In Hospitals; Standard Skin Cure

How many hospital patients, suffering the frightful itch, the raw scorching pain of skin disease, have been soothed to sleep by a soothing fluid washed in by the nurse's hands?

That fluid is the famous D. D. D. prescription for eczema.

THE SUPERVISING NURSE of one of our prominent Catholic institutions (name of nurse and institute on application), writes regarding a patient. "The disease had eaten her eyebrows away. Her nose and lips had become disfigured. Since the use of D. D. D. her eyebrows are growing, her nose and face have assumed their natural expression."

How many eczema sufferers are paying their doctors for regular treatment and are being treated with this same soothing, healing fluid?

DR. GEO. T. RICHARDSON frankly writes "D. D. D. is superior to anything I have ever found. Soft and soothing, yet a powerful agent."

To do the work, D. D. D. Prescription must be applied **according to directions** given in the pamphlet around every bottle. Follow these directions—and see!

And it certainly takes away the itch at once—the moment the liquid is applied. The skin is soothed—calmed—so thoroughly refreshed—delightfully cooled.

All druggists of standing have the famous specific as well as the efficient D. D. D. Skin Soap.

But we are so confident of the merits of this prescription that we will refund the purchase price of the first full size bottle if it fails to reach your case. You alone are to judge.

SOCIAL & PERSONAL

Miss Anna Ferguson, of Bladenboro, was in the city yesterday, to attend the Allen-Foyles wedding.

* * *

Mrs. J. T. Newman, Sr., of Petersburg, Va., has arrived to spend the Winter here with her son, Mr. J. T. Newman, No. 504 Ann street.

* * *

The Fine Arts and Industrial Exhibit of Sorosis will be kept open Friday morning in order that those who desire to purchase any of the articles offered for sale may do so.

* * *

The Literature Department of Sorosis will have no meeting this week, as all the members are devoting their time to the Corn Show and Fine Arts Exhibit. The members will be notified of the next meeting.

* * *

In Hibernian Hall, on Third street, Friday evening, beginning at 8:30 o'clock, the second dance of the season will be given by Prof. W. R. H. Brown, whose orchestra will furnish the music. The public is invited to attend. Ladies will be admitted free and their escorts will be charged 25 cents.

* * *

The one-day bazaar of the Dorcas Society of St. Paul's Lutheran church will be given tomorrow, Friday, November 14th, instead of today, as erroneously announced in yesterday's Star. The bazaar will be given in Lutherarn building, Sixth and Princess streets, on the second floor, and promises to be one of the most interesting and elaborate of the Fall. It will embrace all the attractive features of last year and in addition there will be many attractive articles on sale at the several booths, different from those handled last year. Supper will be served during the evening. The ladies invite the public to attend.

* * *

ALLEN-FOYLES WEDDING
CELEBRATED LAST NIGHT

A pretty home wedding was celebrated last evening at 6 o'clock at the home of the bride's sister, Mrs. C. W. Nixon, No. 510 Market street, when Miss Lena Foyles and Mr. Mitchell F. Allen were united in marriage, Rev. Dr. J. H. Foster, pastor of the First Baptist church, being the officiating minister.

The home was attractively decorated with Southern smilax, flowers and palms. There were only a few invited friends present. The impressive ring ceremony was used. The bride was dressed in Copenhagen blue traveling suit, with hat and gloves to match, and carried a bouquet of bride roses and lilies of the valley.

Following the ceremony there was an informal reception, and refreshments were served. After receiving the felicitations and congratulations of their friends, they went to the union station to take the 6:45 Northbound train. They will visit several Southern cities and also Cuba before returning to this city. After December 1st, they will be at home at No. 1805 Princess street.

The bride is a most charming young lady, and has spent some time here with her sister. She has a large circle of friends. The groom is an assistant cashier of the Murchison National bank, nad is a young man of splendid ability.

* * *

PRETTY HOME WEDDING
YESTERDAY AFTERNOON.

Many friends throughout the State will be interested in the marriage of Prof. Marvin H. Stacy, acting dean of the University of North Carolina, and Miss Inez Koonce, of Trenton, N. C., which took place at the residence of Dr. and Mrs. S. E. Koonce, No. 519 Grace street, at 2:30 o'clock yesterday afternoon.

The home was tastefully decorated with ferns and smilax. Numerous candles lent a charm to the already beautiful scene.

Only a few friends and relatives of the happy couple were gathered in the spacious drawing room to witness the ceremony. Just before the entrance of the bridal party, Tosti's "Beauty's Eyes," was sung in a sweet contralto voice by Mrs. Blake Daniel, of Trenton.

Miss Amelia Wyatt, of Smithfield, presided at the piano and at the sound of Mendelssohn's Wedding March, the maid of honor, Miss Bessie Whitaker, of Trenton, gowned in green chiffon cloth over princess lace, carrying pink Killarney roses, entered and took her place at the side of the improvised altar. The bride, wearing a handsome traveling suit of navy blue cloth and carrying a shower bouquet of Bride roses and lilies of the valley, followed on the arm of her brother, Dr. S. E. Koonce, who gave her away. They were met at the altar by the groom with his best man, Mr. J. E. Swain, of Asheville. The simple but impressive ring ceremony of the Methodist Episcopal Church was performed by Rev. Chas. E. Vale, of Trenton, pastor of the bride. Soft music was played during the ceremony.

The Bridal Chorus from Lohengrin was rendered as the bridal party repaired to the library where they received the congratulations of the guests. The groom's gift to the bride was a handsome cameo pendant encircled with pearls.

The bride is a most attractive young woman whose lovely character has won for her a host of friends. She is a graduate of the State Normal College and has taught several years in the graded schools of the State.

The groom is one of the well known educators of the State, having for 12 years been connected with the University of Chapel Hill, and has recently been elected dean of the school of Liberal Arts. He is a brother of W. P. Stacy, Esq., a prominent member of the Wilmington bar.

The out-of-town guests were: Rev. L. E. Stacy, of Shelby, father of the grcom; Rev. C. E. Vale, Miss Bessie Whitaker and Mrs. Blake Daniel, of Trenton; Miss Clara Leitman, Goldsboro; Miss Amelia Wyatt, Smithfield; Mrs. L. S. Ward, Jacksonville; Miss May King, Concord; Mrs. Lassiter, Smithfield.

GETTING READY TO BUILD.

Work on New Home of Murchison Begins in a Short Time.

Work on the new home and office building of the Murchison National Bank, to be erected at the Northwest corner of Front and Chestnut streets, will begin in a short time. The tearing away of the fence around the present building began yesterday, and the building will be torn down next week.

It will be recalled that almost simultaneously with the announcement of the purpose to erect an office building came the decision of the directors to increase the capital stock from $825,000 to $1,000,000. It is understood that this additional stock has already been over subscribed, so eager were the people to obtain stock in the institution. Preference has been shown persons desiring stock in small sums.

You can find anything in towels and toweling you may wish at C. H. Fore & Co. (advertisement.)

PERSONAL PARAGRAPHS.

—Mr. Palo Alto Mitchell, of Raleigh, deputy office marshal, is attending Federal Court this week.

—Mr. H. Q. Thompson, of Sloop Point, passed through the city yesterday on his way to Burgaw where he has taken a position as bookkeeper for Mr. R. I. Durham, Register of Deeds of Pender county.

—Included in the arrivals at the Southern Hotel yesterday were G. L. Walker, Greenville, S. C.; E. S. Smith, Marine; C. L. Carter, Wallace; W. M. Huggins, Newbern; J. O. Ammons, Whiteville; S. C. Sales, J. T. Ward L. M. Ward and W. J. Benton, Vineland; R. L. Pridgen, Atkinson; W. C. Galloway and J. W. Sellars, Supply; W. H. Pridgen and H. M. Moore, Currie; Mr. and Mrs. Andrew J. Morris, Southport.

LOCAL DOTS.

—The fire department was called out about midnight Tuesday night by a telephone alarm on account of a blaze at the residence of Miss Adelaide Meares, No. 712 Market street. The f was in the back part of the house, is supposed to have been startd by rats and matches. The damage is estimated at $100.

—The Chamber of Commerce received word last night that the hearing before the State Corporation Commission on the petition for a better rate on cross-ties, which was scheduled to be held in the rooms of the Chamber tomorrow morning at 10 o'clock, had been postponed, as the chairman of the Commission had to be in Washington tomorow. The Chamber will be advised of the postponed date.

FEDERAL COURT CASES.

Rapid Progress Made Yesterday With Criminal Docket—Finish Today.

Rapid progress was made yesterday with the criminal cases in Federal Court in session here and today this side of the docket will be completed. Many were continued until next court in the Spring. None of the cases tried yesterday were of great importance, most of them being for retailing. A case against Cass Carter, of Columbus county, charged with retailing and distilling without license, was being tried when court adjourned last night.

Ben Locklear, of Robeson, plead guilty yesterday to retailing without license. He had no lawyer, and plead his own case before Judge Connor. Judgment was not pronounced. He is crippled and unable to walk without assistance. His physical condition indicates extreme nervousness and one that makes him an object of pity.

The larger part of the afternoon was taken up with the trial of Luke Galbreath, colored, of Robeson county, charged with taking $1.55 from a mail box. The jury acquitted him of the charge. Herbert Carter, white, of Old Hundred, was in court charged with assaulting his brother, H. M. Carter, while he was in the discharge of his duties as a mail carrier. At the time he made the alleged assault his brother was waiting for a receipt from the postmaster for money received for money orders. The question at issue was whether or not he was actively engaged in the discharge of his official duties. Judge Connor held the brother guilty, and judgment was suspended upon payment of the costs.

Other cases disposed of were as follows: John Williams, of Robeson, charged with retailing, judgment suspended upon payment of the costs; Alex. Sherrod, of Robeson, plead guilty to retailing, judgment suspended; Jane Hanchie, of Robeson, plead guilty to retailing, judgment suspended; Calvin Charles, of Robeson, charged with retailing, judgment suspended upon payment of the costs; Sam McEachern, of Robeson, charged with retailing, not guilty.

Among the out-of-town attorneys attending the Federal Court this week are: G. B. Patterson, Esq., Maxton; E. J. Britt, Esq., Lumberton; E. M. Koonce and Rudolph Duffy, Esqs. Jacksonville; R. A. McIntire, Esq., Lumberton; Jackson Greer, Esq., Whiteville; Harry Skinner, Esq., Greenville.

CITIZENS' MASS MEETING.

To Outline Proposition for Securing "Phillies" Tomorrow Night.

Everybody interested in baseball and those who want to bring Wilmington to the front as a stopping place for Winter tourists in the South are urged to attend the meeting of citizens to be held in the rooms of the Chamber of Commerce tomorrow night at 8 o'clock. At that time Messrs. C. E. Greenamyer and J. W. Blomme will give a report of their conference with the president of the Philadelphia National baseball club in Philadelphia last Saturday.

They are very much encouraged at the outlook, and believe that if Wilmington business men will get squarely behind the proposition that the club will locate their Spring training quarters in this city. In order to do this it will be necessary for local business men to make some financial contribution out, it is pointed out, they will be more than repaid by the advertising that Wilmington will receive and the increase of travel to this point that will come as a result of the "Phillies" spending six weeks in this vicinity.

It is believed by many that this will be the first link in getting many Winter tourists to stop over in Wilmington during the time that they are in the South. If the baseball club find the climate to be sufficiently mild to allow them to make this headquarters for their training camp there is every reason for supposing that many others would be sufficiently impressed to stop here also.

It means further that Wilmington will have a baseball diamond on which games can be played throughout the season. Then the exhibition games that the club will play here will attract many visitors from nearby towns and cities who will come here to see them. And again it means that thousands of lines of press matter bearing the Wilmington date line will be sent out daily by skilled newspaper men which in itself would mean much in bringing Wilmington prominently before thousands of readers throughout the whole country.

For these and many other reasons the proposition for securing the team will, no doubt, appeal strongly to the people of Wilmington, and it is hoped that there will be a large attendance tomorrow night.

Want Charlotte to Help.

Messrs. C. E. Greenamyer, J. S. McEachern, H. F. Morse and Capt. M. L. Gilbert will leave this morning for Charlotte to attend a meeting of the Greater Charlotte Club which will be held tonight to discuss the new steamship line to Wilmington from Baltimore and other Northern ports. The purpose of the meeting is to interest the Charlotte shippers in the new line, and to enlist their support. They will be able to ship their freight via Wilmington from Northern cities for the same rates as they have been doing via Norfolk, and it is believed that this proposition will appeal very strongly to them.

WARM SESSION OF COUNCIL

(Continued from Page Five.)

Some surprise was expressed by citizens a few days ago that a copy of the report of the analyses is not filed daily with the water department as well as with the health department.

In reply to a question asked him by Supt. W. E. Merritt, Mr. Catlett said that the conditions now existing at the waterworks plant had existed to some extent for the past 18 months, merely getting worse all the time. Supt. Merritt also asked Mr. Catlett that if the plant had been in good condition on June 1st would it have gone bad in 30 days after he (Mr. Merritt) took charge. Mr. Catlett replied that he did not think it would have gone bad so quick if it had been in good condition when turned over to the present administration.

Making Improvements.

Mr. Sweeney, the engineer at the plant, told of the improvements that are now being made at the plant under authority given him by the Council last week, and also made an interesting talk of the conditions existing at the plant. He stated that the new set of filters installed by the last administration had never given satisfaction, mainly because they were put in operation with 17 inches of sand when they should have had 30 inches. He asked that the basin capacity be increased and also suggested that as soon as possible the city increase the reservoir capacity. The present consumption of water is 2,300,000 gallons a day and is growing rapidly with installation of the extensions of the sewerage system.

Much of this increase is due to the fact that large quantities of water is now wasted as there are but few meters in the territory of the sewerage extensions. It will be necessary to buy and install a large number of meters in order to stop this waste. A representative of the National Meter Co. was present, but merely stated that when the Council desired to purchase more meters he would be glad to take the matter up. He will confer with Councilman Wood and a recommendation to the Council with regard to meters will likely be made at the next regular meeting.

No Request Yet Made.

Councilman Wood inquired of Mayor Moore if he had made request yet of the Surgeon General of the United States Public Health Service for a water expert to make an investigation of the situation here and advise what steps should be taken to improve the water supply. He replied that he had not; that everything could not be done in a minute. A resolution empowering him to make the request, was passed at the special meeting Monday.

Upon motion of Councilman Merritt, seconded by Councilman Wood, it was decided to meet hereafter at 4 P. M. instead of 10 A. M. The meeting then adjourned.

..Theatrical..

"The Girl of My Dreams" pleased a large audience at the Academy of Music last night. It was one of the largest houses of the season and the show was greatly enjoyed. The chorus was large, fairly good looking and the voices were not bad. Countess Olga Von Hatzfeldt, as Lucy Wedders, the "Quaker Girl," is a very clever actress, graceful and bewitching, is a good dancer, has a sweet voice and her songs were well received, "Doctor Tinker, Tinker," making one of the hits of the evening. Roy Purviance, as Harry Swifton, "an all-round good fellow," was splendid. Ida Von Luke, as Daphine Daffington, a sentimental milliner, is another who deserves special mention.

Big Week at Bijou.

The greatest week not only in the history of the popular Bijou, but in the history of Wilmington, from a moving picture standpoint, is continuing to create a sensation. Yesterday, both afternoon and night, the Bijou was crowded with people, who, besides finding rare pleasure in the great show, found solid comfort, as the Bijou is the comfortable spot no matter the character of the weather. It cozily meets all conditions. Following up the big shows of the past three days, another swell offering will be made today, featured, of course, by a great special release film. Today this star will be "The Battle of Fort Laramie," in two large reels. It is a thrilling story, founded on an historical incident and hundreds of soldiers, cowboys and Indians take part. The principal roles are portrayed by some of the best artists in the moving picture world and the production itself is really stupendous. It is a hair-raiser from start to finish; just such as will bring cheers from the throats of the onlookers, as they witness several thrilling encounters between the Redskins and the soldiers.

Yet another notable star today is "The Great Discovery," which is something of exceptional power on the dramatic line. The price at the Bijou remains the same, 5 cents.

Four Pictures at Grand.

Four big films are offered by the cozy, handsome Grand today. It is one of the best selections ever made in the film line, and each one represents the very latest and the very best. The Grand always endeavors to keep ahead of the procession and is well succeeding, judging by the enthusiastic comments of those who daily crowd the delightful theatre. The quartet of star films today will be led by Pathe's exceedingly clever cartoons plays. It is a rouser and will be hugely enjoyed by all who seize the rare chance to see it.

The Biograph's "His Secret", being the story of a society man in despair, who is saved from final ruin by his plucky wife, is another great one of today's quartet, while still another is Essanay's "Love and the Law." This is a tale of Western romance, with plenty of wholesome comedy and an abundance of excitement. Then a swell educational film is offered in "Riding the Flume."

Week of Prayer Service.

The subject of the Y. M. C. A. prayer service last night was "That All May be One." The leader was Mr. Edward Roberts, the boys' work director. There was a good attendance, and the deepest interest was manifested. The service tonight will be conducted by Mr. K. W. Price, and the subject will be "The Power of God, the Means of Salvation." The service begins at 7:30 each night this week, and the public is cordially invited to attend.

LIEUT. COVALL TRANSFERRED.

Goes to the Cutter Pamlico at Newbern—Host of Friends.

Lieut. C. L. Covall, of the revenue cutter Seminole has been transferred to the cutter Pamlico stationed at Newbern. He has won many friends while stationed in Wilmington who regret to learn of his transfer. He was executive officer of the Seminole but was in command a large part of the time. Much valuable service to all vessels in distress was rendered during his stay and the shipping interests at Newbern are to be congratulated upon his being sent there. His transfer brings expressions of genuine regret from the whole nautical community.

COTTON MARKET STEADY

Less Active But Showed a Generally Steadier Tone With Active Months Selling Above Close of Previous Day.

New York, Nov. 12.—The cotton market was less active today, but showed a generally steadier tone, with active months selling about 13 to 17 points above yesterday's closing figures on covering, scattered trade buying and support from bullish sources. The close was 4 or 5 points off from the best, under realizing, but steady, and from 7 to 13 points net higher.

Liverpool did not fully meet yesterday's local decline, and first prices here were steady, one point lower to three higher. Private cables attributed the steadiness of Liverpool to small offerings, and a moderate trade demand, and very much the same situation appeared to exist in the local market. At any rate prices soon sold some 11 to 13 points net higher on covering by recent sellers, who apparently found very little cotton offering. Good weather was reported in the South, except for freezing temperatures at a few points in the Eastern belt, and there seemed nothing to interfere with ginning or the movement while during the middle of the day a good many private wires were received here from Southern points, which claimed that there was a poor spot demand, and that offerings were becoming heavier. These advices failed to create any aggressive selling pressure, however, and reactions were limited. After the close, it was rumored that ocean freight room had been engaged for the shipment of about 30,000 bales from the local stock which now amounts to considerably under that figure, suggesting that shipments here from the South have already been provided with an outlet and the situation in this respect may have helped the afternoon advance, although December contracts did not fully maintain their premiums and November continued to sell at a discount.

Spot, quiet. Middling uplands, 13.60; do, gulf, 13.85; no sales.

Cotton futures closed steady.

SUPREME COURT OPINIONS.

Partial New Trial in Dooley Against Seaboard—Other Decisions.

(Special Star Telegram.)

Raleigh, N. C., Nov. 12.—The Supreme Court delivered opinions this afternoon in 17 appeals as follows: Dooley vs. Seaboard Air Line, New Hanover, partial new trial as to damages; State vs. Daniels, Durham, no error; Henry vs. Heggie, Granville, new trial; Clothing Co. vs. Hay, Alamance, new trial; Shepherd vs. North Carolina R. R. Co., Alamance, new trial; Thompson vs. Thomas, Davidson, no error; Gobble vs. Orrell, Davidson, no error; Breeden vs. Minola Mfg. Co., Guilford, no error; In re will of W. R. Smith, Guilford, no error; Scott vs. Reynolds, Guilford, no error; Supply Company vs. Masonic Eastern Star Home, et al. Guilford, reversed; State vs. John A. Smith, Union, no error; McConnell vs. N. Y. Central and Hudson River Railroad Co., Moore, no error; Gibson vs. Commissioners of Scotland county, affirmed; Ballard vs. Lowery, Anson, affirmed; McNair vs. Boyd, Richmond, no error; Wilson vs. Scarboro, Wake, motion of plaintiff to re-tax denied.

In the case of State vs. Daniels, from Durham, affirming the lower court, the prisoner, Cleve Daniels, is under sentence to be electrocuted for the murder of Jim Dunnegan.

In awarding a partial new trial in the case of Dolley vs. Seaboard Air Line, from New Hanover, the court takes the position that in making up damages only those relatives for whose benefit the administrator sues can be considered. The trial judge had charged that in estimating damages the net income of the intestate must be considered.

Now is the time to select your holiday handkerchiefs, while the goods are new and fresh. (advertisement.)

PRICE OF WHEAT LOWERED

Heavy Rains in Drought Afflicted Parts of Argentina Effect Market—Corn and Oats Off a Little.

Chicago, Nov. 12.—Heavy rains in the drought afflicted parts of Argentina today lowered the price of wheat. The closing however was firm at ⅝@½c. net decline.

Corn and oats both finished a shade off to ⅜c. up. In provisions the outcome varied from last night's level to 12½c. advance.

Cash grain:

Wheat—No. 2, red, 94@95¾; No. 2, hard, 87@88; No. 2, Northern, 88@89; No. 2, Spring, 87@88.

Corn—No. 2, 71¼@71½; No. 2, white, 71½@72; No. 2, yellow, 72@72½.

Oats — No. 3, white, 38¾@39; standard, 40½@41.

Wheat—December, 85¾@85¾; May, 90⅝.

Corn—December, 69; May, 70.

Oats—December, 38; May, 41¾@41⅞.

Pork—January, 20.22½; May, 20.25.

Lard — January, 10.77½@10.80; May, 10.45.

Ribs — January, 10.70@10.72½; May, 10.82½.

AFFAIRS OF DIOCESE.

Standing Committee to Meet in Washington—F. H. Cotton Dead.

Fayetteville, N. C., Nov. 11.—Mr. F. R. Rose left today to attend a meeting of the standing committee of the Diocese of East Carolina to be held tomorrow in Washington, N. C. Owing to Bishop Strange's illness he has turned over by canon the ecclesiastical authority to the standing committee, until he sees fit to resume it.

The standing committee as announced in The Observer this afternoon, is composed of the following clergymen and laymen: Rev. Nathaniel Harding, Washington; Rev. W. H. Milton, Wilmington; Rev. R. B. Drane, Edenton; Mr. Geo. H. Roberts, Newbern, and Mr. F. R. Rose, Fayetteville.

His many friends in Fayetteville, says The Observer, hope that Bishop Strange may soon regain his health and resume his welcome visits over the Diocese.

Mr. Frank H. Cotton, a prominent and popular citizen of Fayetteville, died at his home on Haymount, at 3:45 o'clock this afternoon, after a long illness.

Buenos Ayres, Nov. 12.—Col. Roosevelt was the guest of honor at a great banquet at the Colon Theatre tonight at which covers were laid for more than a thousand. In the afternoon he witnessed a review of the troops at Campo Mayo. He also was present at the Military Club on the occasion of the presentation of a statue of Gen. Sheridan.

Whenever You Need a General Tonic Take Grove's

The Old Standard Grove's Tasteless chill Tonic is equally valuable as a General Tonic because it contains the well known tonic properties of QUININE and IRON. Drives out Malaria, enriches Blood, Builds up the Whole System. 50c.

GENERAL RISE IN STOCKS

Improvement in Speculative Sentiment, Both at Home and Abroad, Was Reflected in Market Yesterday.

New York, Nov. 12.—Improvement in speculative sentiment, both at home and abroad, was reflected today in a general rise in stocks. The day's news, however, presented no essentially fresh aspect. There was a general impression that the outlook regarding Mexican problems was brighter. Mexican securities moved up sharply in London, and National Railways of Mexico second preferred rose substantially here.

An important influence was the conviction that a substantial rally was due, after the protracted period of weakness. The weakness of the present position, however, lies in the fact that today's upturn apparently was based almost entirely on professional operations. The better feeling abroad was of direct influence on this market on account of liberal buying for foreign account. Trading was most active early in the day, and it became dull after immediate requirements of shorts had been met. The market maintained its firm tone, in spite of a few weak spots. Mexican Petroleum broke nearly 5 points on the report that the quarterly dividend had been passed. New Haven touched a new low record at 77 but rallied later.

Business in bonds was small, and price movements were uncertain. Total sales, par value, $1,880,000. United States bonds were unchanged on call. Total sales, 233,700, including: C. and O., 200; Lehigh Valley, 13,800; N. and W., 200; Reading, 34,000; S. A. L., pfd., 200; Southern Railway, 100; Southern Railway, pfd., 100; Tennessee Copper, 700; Union Pacific, 32,900; United States Steel, 46,500.

LIQUOR CASE ARGUED.

Mecklenburg Special Act—Several Charters Issued—Tobacco.

(Special Star Correspondence.)

Raleigh, N. C., Nov. 12.—The Supreme Court heard argument yesterday in the case of State vs. Lewis Russell, from Mecklenburg, in which the defendant is under sentence for selling liquor, his case being under the special statute that makes the possession of more than two and a half gallons of whiskey prima facie evidence of selling. The defendant is defended by Walter R. Henry as counsel, who seeks to have set aside the ruling of the Supreme Court in State vs. Barrett, 138th North Carolina Reports, in which the special act limiting legal possession of liquors to one quart was upheld. Attorney General Bickett argued to the court that, this being a strenuous and ingenious attempt to have the court overrule the Barrett case, he is confident that the court has no disposition to do so, and that as a matter of pure mathematics this case is just ten times as strong as the Barrett case.

The Secretary of State chartered yesterday: The Sydnor-Clark Co., Hamlet, wholesale and retail grocers, capital $25,000 authorized and $2,100 subscribed by W. H. Sydnor, S. W. Clark and others. The Cabarrus Motor Co., of Concord, $10,000 capital authorized and $6,000 subscribed by Parks M. Lafferty, Joe McCanless and others. The Kenansville Land Co., of Kenansville, Duplin county, capital $50,000 authorized and $30,000 subscribed by E. A. Farrior, Kenansville; A. D. Ward, Newbern, and Murray Ward, of Rose Hill.

All records in the sale of leaf tobacco in North Carolina were broken during the month of October with Winston-Salem at the top of the column with nearly three millions more pounds than any other market in the State. Thirty-six markets reported 58,752,605 pounds sold and it is certain that the actual sales, some of the markets having failed to make full reports, easily rounds up sixty million pounds. The sales for October last year were 35,224,279. Winston-Salem's sales amounted to 8,681,182 pounds and next in line was Wilson with 5,859,821 pounds. Durham sold 2,680,383 pounds; Madison 856,449; Greensboro 341,063 pounds. It is estimated that North Carolina tobacco growers easily realized ten million dollars in October for tobacco sold and 20 cents per pound and upwards seems to have been an average crop price.

Deputy Internal Revenue Collector J. P. Stell with posse of assistants captured a 150-gallon still, eleven bags of meal, a wagon and fine horse and three blockaders last evening, 15 miles west of Durham. The alleged blockaders are A. W. Wagner, F. E. James and Arthur James. They were just starting up the still when the officers walked up on them. The three men have given $200 bond each.

THOSE FEDERAL JOBS.

Senators Make Recommendations—Officers Who Will Not Oust.

(Special Star Telegram.)

Washington, D. C., Nov. 12.—Senator Simmons called at the Department of Justice today and told the Attorney General that he wanted to recommend Francis D. Winston, of Windsor, for district attorney, and W. T. Dortch, of Goldsboro, for marshal. At the same time Senator Overman notified the attorney general that he would recommend Charles A. Webb, of Asheville, for marshal, and W. O. Hammer, of Asheboro, for district attorney. The recommendations will be put in writing probably tomorrow. While the recommendations of the two Senators today was informal, it is no less binding and they will stand by them. As already stated in these dispatches Attorneys Holton and Seawell and Marshals Dockery and Logan will be removed from office by President Wilson. This action, it is expected, will be taken at a very early date. Seawell wrote a very curt letter to Attorney General McReynolds and he will probably be the first one of the four to lose his official head. Senators Simmons and Overman will discuss this phase of the question with Mr. McReynolds tomorrow. P. R. A.

TYPHOON SWEEPS ISLAND.

Guam Struck by Damaging Storm—Collier Ajax Ashore.

Washington, November 12.—First news of a great typhoon which swept the Island of Guam and threw the collier Ajax ashore, came to the Navy Department today in a report from Lieutenant Commander Alfred W. Hynds, Governor of the Island and commandant of the naval station there. Hospital Steward George M. Nicholson who has been sent ashore with a rescue party from the Ajax, was drowned.

The storm demolished native houses and destroyed roads, wharves, lighters and telegraph and telephone poles. The collier was severely damaged, but her hull is intact.

We are now showing our complete stock of holiday handkerchiefs. C. H. Fore & Co. (advertisement.)

PRESENTED TO POPE.

Naval Officers and Blue Jackets See Pius.

Rome, Nov. 12.—Nine American naval officers and 125 blue jackets were received this morning in private audience by Pope Pius. The men were conducted to the Vatican by Captain William J. Maxwell, of the battleship Florida, and were presented to his holiness by Monsignor Thomas F. Kennedy, rector of the American college in Rome.

The reception took place in the papal apartments. The pope spoke with the American officers and imparted to them the apostolic benediction.

As the sailors left the hall they gave three cheers for the Pope.

Rear Admiral Badger has extended an invitation to the American ambassador, Thomas Nelson Page, to visit the warships, and the ambassador has arrnaged a dinner in Rome for Friday evening in honor of Admiral Badger and the commanders of the battleships now at Naples and Genoa. Many high officials of the Italian government also will be present.

Naples, Nov. 12.—The battleship Wyoming, flagship of the United State squadron, arrived here this morning from Malta.

New York, Nov. 12.—The annual meeting of the United States Golf Association will be held in thihs city on January 9th, 1914. It was announced today that the ticket for officers made by the nominating committee named Robert C. Watson, Jr., New York, for president, and John Reid, Jr., New York, for secretary.

HOW TO TREAT CROUP EXTERNALLY

Don't dose delicate little stomachs with nauseating drugs—rub **VICK'S Croup and Pneumonia SALVE** well over throat and chest; in five minutes the breathing is easy and in fifteen minutes the worst cases are relieved. The heat of the body releases antiseptic vapors which are inhaled with each breath, loosening the tough phlegm and cleansing the air passages. Absolutely harmless; full ingredients on wrapper. At all druggists, 25c, 50c and $1.00. Liberal sample on request. Vick Chemical Co., Greensboro, N. C.

U. D. C. REPUDIATES WOMAN SUFFRAGE

(Continued from Page One.)

Her motion was carried by a large majority.

Among interesting reports of officers submitted at the three sessions today, were those of the President-General, Mrs. Alexander B. White, and of the historian general, Miss Mildred Rutherford. Miss Rutherford said she had compiled a history of disputed points of the War Between the States. As it has been impossible to arrive at a concensus of opinion on many incidents she said, the new history is so arranged that readers may take their choice.

Mrs. White brought cheers when she read the portion of her report advising U. D. C. members to discourage attempts to get pensions for Confederate veterans from the government.

4,000 New Members.

About 4,000 members were added to the ranks of the organization during the last 12 months and soon a new State division—Colorado—is to be brought into the organization, Mrs. White reported.

As a contrast to this record more chapters have been dropped than in any year of the organization's history. This, Mrs. White attributed to "weeding out of dead timber". In this connection she laid stress upon the necessity of more careful study of records of those wishing to become members. Only women who could show relationship to men who really fought in the War Between the States, she said, should be admitted.

Of the pensioning of Confederate veterans, Mrs. White said:

"Your president-general asks members of the U. D. C. to discourage any movement towards securing pensions from the United States government and to request the United Confederate Veterans not to ask for them. Let us insist they not be led astray by this mirage, pledging them we will do more for them than we ever have done. Let us save them and the South from this humiliation.

"Your president-general feels that because of the spirit of amity prevailing throughout the whole country the Confederate organization should not be led into asking too much of the government for Confederate veterans; that we want this good feeling to continue and we do not want any rebuffs."

One of the striking resolutions of Mrs. White was that "every chapter and every individual member should have the privilege and protection of appeal from chapter to State organization and the State organization to the General organization.

Mrs. White announced that Virginia for the second time had won the honor of gaining the most new members since the last convention.

The delegates were entertained at a musical from 4 to 6 o'clock this afternoon and tonight after a brief business session a reception was given for them.

North Carolinians Present.

New Orleans, La., Nov. 12.—North Carolina is well represented in the U. D. C. Convention here by 20 delegates from Faison, Warsaw, Charlotte, Newton, Laurinburg, Lumberton, Greenville, Wadesboro, Salisbury, Wilmington, Selma. The flag that Waddell carried around the world on the Shenandoah was shown to the convention by the State president, Mrs. Marshall Williams, who received much flattering attention. Ashley Horne was mourned in memorial services as one of the State's noblest sons. The hospitality of the city is unbounded.

MORE VICTIMS OF STORM

(Continued from Page One.)

degrees from the lowest temperature at 6 o'clock this morning.

The crew of 32 men and one woman of the big freighter M. A. Hanna which was driven ashore off Point Auzbarques in Lake Huron Sunday night, reached here today with thrilling tales of their rescue. Secretary George A. Marr, of the Lake Carriers' Association, received a wireless report late tonight that a derelict lumber barge has been sighted in Lake Huron by the crews of several steamers. Most of the lumber has been washed overboard and the steamers were unable to get close enough to make out the name of the barge.

Travel Uncertain.

Weston, W. Va., Nov. 12.—This section of West Virginia regained communication with the outside world late today after having been cut off by heavy snow since last Saturday night. Snow fell to a depth of from 33 to 48 inches and in places is badly drifted. Trolley and railroad travel still is uncertain.

Seven Bodies Found.

Goderich, Ont., November 12.—Seven bodies believed to be members of the crew of the schooner Charles S. Price, have come ashore below Grand Bend.

Wreckage found here indicates that the James Carruthers, the largest Canadian freighter on the Lake, has been lost.

A life raft and five oars apparently from the steamer Argus were also found below here.

The Carruthers was owned by the St. Lawrence and Chicago Navigation Company.

The Charles S. Price was a steel schooner of 4,901 tons, built at Lorain, Ohio, and owned by the Mahoning Steamship Company.

The Argus is not known here.

Not Their Boat.

Cleveland, November 12.—The Pickands-Mather fleet of Cleveland, has a 400-foot steamer, "Argus," but officials are certain their vessel is not the one which lost a life raft and five oars near Goderich, Ont.

Officials of the Pickands-Mather Co., said this afternoon their boat cleared from Buffalo last Saturday laden with coal for South Chicago and passed Port Huron Monday morning at 2 o'clock.

FORGED PARI-MUTUAL TICKETS.

Three Men Convicted for Practice on Many Race racks.

Louisville, Ky., November 12.—Penalties for the forging and cashing of pari-mutual tickets during the recent race meeting at Douglas Park were assessed in the criminal court here today against three men. A. L. Fry, claiming to be from Virginia, pleaded guilty and was given an indeterminate penitentiary sentence of from one to five years. J. J. Jefferson, alias F. M. Sheets, also said to be from Virginia, was sentenced to five months in the county jail on his plea of guilty. John Molden, alias T. J. Johnson, a Pittsburgh steamboat engineer, pleaded guilty to a misdemeanor charge and was assessed a fine and costs. The three were accused of having forged and cashed tickets on October 4th, last, and were declared by the officer who arrested them to have been members of a gang which has operated similarly on other race courses.

HUERTA GIVEN UNTIL TWELVE LAST NIGHT

(Concluded from Page One.)

street dividing the two towns were several hundred American refugees from Mexico who eagerly awaited news from the conference chamber believing that the safety of their possessions abandoned in Mexico depended on the outcome. But no word as to what President Wilson had proposed to General Carranza through Mr. Hale or what the rebel leaders thought of the proposal was allowed to leak out.

Mr. Hale went directly from the conference room to the American side and entered into communication with Washington.

Japan Sends Cruiser.

Tokio, Japan, Nov. 12.—The Japanese government decided today to send the armored cruiser Izumo to Mexican waters for the protection of Japanese subjects in Mexico.

Officials declared that their action was merely a precautionary measure, in case the situation there becomes critical. The foreign office issued a statement saying:

"The Japanese government is sincerely desirous that the situation in Mexico should improve and that natives and foreigners in the country should be safe, but judging from reports the lives and property of Japanese residents there cannot be said to be secure.

The impression prevails that the Japanese government first sounded the United States in connection with the sending of a warship to Mexico in order to avoid the possibility of misinterpretation of its action.

Lind's Effects Removed.

Vera Cruz, Nov. 12.—The personal effects of John Lind, President Wilson's representative, were removed tonight from the hotel where he has resided during his stay in Vera Cruz to the American consulate.

Await Announcement.

Berlin, Nov. 12.—The German government still awaits announcement of the definite policy the United States proposes to adopt in regard to Mexico, no exact indications of which have been brought to the German government's attention.

Germany, it is pointed out, is interested solely in the restoration of order in Mexico and hopes that the American solution of the problem will be announced and put into action as soon as possible.

Cowdray Issues Denial.

London, Nov. 12.—Lord Cowdray today issued a statement above his own signature setting forth the extent of his financial connections with the Mexican government. He said:

"Statements of a mischievous character having appeared in the press in reference to my financial connection with the government of Mexico, I think the public is entitled to learn what are the facts.

"In common with most of the banks and leading houses in Mexico my firm and allied companies subscribed for a small proportion—less than 3 per cent—of the government loan made through the National Bank of Mexico.

"Apart from this neither I, my firm nor our allied companies have in any way directly or indirectly, assisted in a financial manner the present provisional government."

Bryan Informed.

Washington, Nov. 12.—Secretary Bryan was informed of the dispatches from Mexico City saying that Mr. Lind had left there, but he volunteered no explanation.

Mr. Lind's movements have been left entirely to his discretion. His departure for Vera Cruz was regarded as the forerunner of some new development.

All day and tonight there have been rumors current that not only Mr. Lind, but Charge O'Shaughnessy and the embassy officials might be withdrawn from Mexico City, but no official could be found who would comment on them.

Lind Back to Vera Cruz.

Mexico City, November 12.—John Lind, President Wilson's personal representative, left the Mexican capital today for Vera Cruz. Mr. Lind has been here since November 7th in conference with American Charge d'Affaires Nelson O'Shaughnessy and others concerning the Mexican situation.

RATES TO COLUMBIA.

Fight Instituted by Chamber of Commerce is Successful.

Washington, Nov. 12.—Existing freight rates, both class and commodity, from Eastern and Western points of origin, were held by the Inter-State Commerce Commission today to be unduly prejudicial to Columbia, S. C., as compared with rates from the same points to Augusta, Ga. Investigation disclosed that the two cities were "similarly located, so far as transportation by rail is concerned, inland from Savannah, Ga., and Charleston, S. C., and also with respect to competition with each other and with the ports named."

The commission held that there was no sufficient reason "to justify the present disparity in rates in favor of Augusta" from such points as Cincinnati, Louisville and Knoxville, and directed that the rates to both Columbia and Augusta, should be so adjusted as to maintain an absolute parity.

Railroads in the Southeastern territory were ordered therefore to file tariffs by February 1st in conformity with the conclusions the Commission reached in the case instituted by the Columbia Chamber of Commerce.

DONAHOE IS GUILTY.

Fine of $2,000 Imposed for Conspiracy Against Clarence S. Funk.

Chicago, November 12.—Attorney Daniel Donahoe, charged with conspiring to defame Clarence S. Funk, former general manager of the International Harvester Company, tonight was found guilty and fined $2,000. Detective Isaac Stiefel, tried on the same charge, was found not guilty.

Donahoe and Stiefel were indicted after a suit charging Mr. Funk with having alienated the affections of Mrs. John C. Henning has been missed. Henning, in whose name the suit against Mr. Funk was brought, disappeared after the trial, but was arrested in Minneapolis just before the trial of Donahoe and Stiefel began. He and Mrs. Henning were the chief witnesses for the prosecution.

OLD TIMERS CELEBRATE.

Yale Football Team of '88 Gather for Silver Anniversary.

New Haven, Conn., Nov. 12.—A famous football team—Yale's '88—celebrated its silver anniversary here tonight with Capt. William H. Corbin, of that eleven, now State tax commissioner, but always "Pap" Corbin to Yale men, as the host. Besides the team members the guests included Perry W. Harvey, who played in the Yale-Princeton game of 1888, Walter Camp, head coach of that team; Ray Tomkins, captain of the eleven of 1883; Robert N. Corwin, captain of the 1886 team; Harry Beecher, captain of the 1887 team, and Gifford Pinchot, of the 1888 squad.

WHISKEY SAID TO BE NATION'S CURSE

(Continued from Page One.)

based upon a misguided judgment. Continuing, he said:

"I have seen the trail of liquor in the criminal courts where I have prosecuted crime. I know and have been a participant in its paralyzing and corroding influence of social and public life of our national capital. As the Governor of Tennessee, I have seen it a veritable and raging center of storm around which gathered its defenders and assailants, and from which sprang divisions in parties, disputes in families and dissensions in churches.

"Going through life I have seen it drag down many of the associates of my boyhood, blasting their hopes and consigning them to untimely graves. I have seen its forked lightning strike my first born—the child of my young manhood. At last I have felt its foul and stealthy blow as it turned upon me in its deadly and shaming wrath—upon me who had pleaded before the people for its very existence.

"I cast aside all pride of opinion, and went to the throne of Almighty God. There on bended knee I asked for light and strength, and they came.

"The saloon cannot produce one veracious witness in its favor. It stands a convicted felon and must receive the sentence of the law. It must go never to return and with the going of the saloon liquor itself should go."

The programme of the convention calls for three sessions tomorrow, the convention concluding its work tomorrow night.

Rev. Father J. J. Curran, of Wilkesbarre, Pa., known as a close personal friend of former President Roosevelt, said in his address that the Catholic church, through individual expressions of its clergy, eventually will give hearty endorsement to the work of the anti-saloon league.

This convention will tend to eliminate the hostilities that have existed between the National Prohibition party and the Anti-Saloon League, Rev. Joshua Levering, Baltimore, former Prohibition candidate for President, declared.

Election of National officers will take place tomorrow and resolutions representing the sentiment of the convention regarding National prohibition will be adopted.

FIVE COMMITTEES ANNOUNCED.

Plan for Uniform Players' Contracts for Next Season.

Columbus, O., Nov. 12.—Five committees were announced by President Sexton, of the National Association of Professional Baseball Leagues during today's session. One committee was assigned the problem of devising a way whereby a uniform style of contract can be prepared for players of the five different classes of leagues affiliated with the organization.

In a communication to the convention, the National Commission made the suggestion of uniformity. The greatest obstacle now apparent, baseball men say, is the possible insertion of a clause requiring a player to be given notice of release ten days prior to the time the release can be made effective. It is understood that class A leagues are willing to work under this plan, but those in classes B, C and D do not favor the idea of having to carry and pay a useless player for ten days.

President Tearney, of the Three I League, started a movement for a reform in the system of drafting players and was supported in a fight against the practices of major league clubs in claiming a large number of players and then making cancellations of the drafts. It was voted that there shall be no such procedure by National Association clubs.

Committees will commence reporting tomorrow and it is said the business of the convention will be completed during the day.

Secretary Farrell read to the convention the list of requests from the players' fraternity. No action was taken, it being left to the committee on contracts to formulate a course of procedure to be submitted to the convention for ratification. No objection will be made to sending a committee into conference with the National commission and representative players.

FEDERAL UNIVERSITY.

To be Established on Order of Present State Institutions.

Washington, Nov. 12.—The movement for the establishment of a great Federal university in Washington on the plan indorsed by the National Association of State Universities, began to take form today. President Edmund J. Jones, of the University of Illinois, commenced the preparation of a bill to be introduced at the next regular session of Congress after being submitted to President Wilson for his approval.

The bill will be designed to carry a preliminary appropriation of $500,000 towards the establishment of a University to be under the control of a board appointed by the President of the United States. It will propose an advisory board made up of one delegate from each State to frame the policy of the institution.

"This would be an institution for advanced work," said President James today. "It will compare, when established, with the University of Paris and the University of Berlin."

MAY BUILD NEW PIER.

Local Anglers May Construct One at Wrightsville Beach.

A number of local anglers are contemplating organizing a company to build a pier at Wrightsville Beach, at the point where the old wreck lies, just off Lumina. A preliminary survey was made Tuesday, and it was found that one could be erected at an approximate cost of $5,000. The Tidewater Power Company has generously offered to make certain concessions and to do all that it can to encourage the enterprise. If the pier is built, it will extend a distance of 900 feet out to the old wreck, and will furnish an ideal spot for catching fish.

TERRIFIC EXPLOSION.

Ohio Town Rocked by Explosion in Mine.

Belle Valley, Ohio, Nov. 12.—This little mining town was rocked by a terrific explosion late today when accumulated dust in the Imperial mine, of the O'Gara Coal Company, of Chicago, let go. One foreigner was badly burned, and eight other miners had narrow escapes. They were near the scene of the explosion, and groped their way through dark tunnels for an hour before they emerged.

Washington, Nov. 12.—The contract for the construction of an oil barge for the navy was today awarded to the Norfolk Navy Yard, the lowest bidder, at $76,850. Other bids were submitted by the Philadelphia and Boston yards. Work on the new craft is to be commenced at once and completed this year.

CHARGES ARE PREFERRED.

Against President and Former President of Union.

New York, Nov. 12.—The recent strike of chauffeurs employed on mail trucks here resulted this afternoon in the arrest of the pesident of the chauffeurs union, a former president, and five other officers and members.

All were charged with conspiracy to obstruct and retard the operation and movement of the mails, an offense punishable with a maximum prison term of two years and $10,000 fine.

Louis Terry, known as "Big Terry" former president of the union, and Patrick Johnson, said to be the union's present head, were among the first arested. They and their companions were held in $5,000 bail each for examination Monday.

Sacramento, Cal., Nov. 12.—The Chicago American-New York National baseball game scheduled for today was postponed on account of rain.
